

**Proposed Policy and Procedures Statement
for Use of Toxic Substances on the UAF Campus.**

The University of Arkansas is committed to the health and safety of its students, faculty and staff. It is recognized that during their work for the University, some people will be involved in activities that require the use of substances or materials that are hazardous or toxic in nature. The Environmental Health and Safety unit of the physical plant has prepared the UAF Chemical Hygiene plan. This document addresses the safe use of toxic substances in laboratories. In addition, it defines the minimum acceptable standard safety practices for execution of laboratory work for both research and teaching. The chemical hygiene plan is available from the EHS web page (<http://www.phpl.uark.edu/ehs1/CHP.pdf>), and is the full statement of the UAF campus policy and procedures for handling toxic substances.
