	Description and justification of the request	<p>PRAXIS Core Competency requirements were removed from the degree program (previously item 1 on list of 'Additional Requirements').</p> <p>NTE Principles of Learning and Teaching (PLT; 7-12) exam requirement was removed from the degree program (previously item 1 on the list of 'other certification requirements'). In its place, passing the pedagogy assessment via a minimum average of 2.0 on each TESS domain was included The Office of Teacher Education has removed the requirement of the PRAXIS Core Competency for admission into the UA Teacher Preparation Program, as well as, removed the use of the PLT for licensure. In place of the PLT, the Office of Teacher Education will use the TESS evaluation.</p>	<p>Remove AGED 4113 - Undergraduate Researchers Improving Student Experience from degree plan.</p> <p>Remove AGED 3111 - Student Management from degree plan.</p> <p>Changed AGED 4211 - Teachers as Professionals from one hour credit to AGED 4213 three hour credit.</p> <p>Change AGED 4231 - Program Development from one hour credit to AGED 4233 three hour credit. This course will change from being offered during the last semester in the degree plan to the spring semester of the junior year. Other electives will be moved to accommodate this change and balance semester credit hours.</p> <p>4 credit hours will be removed (AGED 4113 AGED 3111) while 4 credit hours will be added in expanded courses (2 in AGED 4213 2 in AGED 4233) for a net zero change in credits for the degree plan. Changes to the AGED concentration degree plan are necessary in order to provide our students with a more rounded education in relation to holistically managing an agricultural education program. Changes would allow additional instruction in the areas of managing youth organizations and supervising experiential learning outside of a classroom through an expanded AGED 4233 Program Development course. These are areas in which recent graduates have indicated we need to provide additional instruction. The removal of the AGED 4113 URISE course is necessary because it does not teach skills that are highly sought after by students in our program. The removal of the AGED 3111 Student Management course is necessary because it is repetitive in the concepts taught. Most of the competencies taught in AGED 3111 are also taught in other AGED courses. Any AGED 3111 not covered in other courses can be integrated in the expanded AGED 4213 Teachers as Professionals course. Teachers as Professionals should be expanded to 3 hours to balance credits in the last semester and to provide additional contact time to teach competencies in this area. Currently, the AGED program needs improvement in teacher professionalism TESS standards. 4 credits removed from AGED 4113 and AGED 3111 will be replaced with 4 credits by expanding AGED 4231 to 4233 and AGED 4211 to 4213, adding 2 hours for each course.</p>

	Does this proposal impact any courses from another College/School?	No	Yes
	Description and justification of the request	<p>PHYS 1034 and 1044 were removed because these classes are not designed for our major and appropriate agreements with the Physics Department were not acquired. Information presented in ENTO 1023/1021L and ENSC 1003/1001L has much greater application to students majoring in ANSC. PHYS 1034 and 1044 were removed because these classes are not designed for our major and appropriate agreements with the Physics Department were not acquired. Information presented in ENTO 1023/1021L and ENSC 1003/1001L has much greater application to students majoring in ANSC.</p>	<p>We want to add CHEM 1103/01L as a potential option for our students in the Chemical and Physical Sciences category along with CHEM 1073/1071L. We are adding CHEM 1123/1121L as an option in Chemical and Physical sciences section. We have a number of students transfer in CHEM 1103/01L and a number of students who change their concentration from the Pre-professional to the Animal Enterprises concentration after taking CHEM 1103/01L. By requiring either CHEM 1073/71L or CHEM 1123/21L we are forcing a number of our students to take an extra chemistry course that they may not need depending on their career path.</p>
	Reviewer Comments	<p>agriffin - Wed, 11 Nov 2020 18:35:59 GMT - ATTENTION: Since the Physics courses are listed as part of a group of science electives, they are not impacted greatly. Therefore, this request may be processed by the shortened approval workflow.</p>	<p>agriffin - Tue, 15 Mar 2022 14:41:51 GMT - Changed University Core to State Minimum Core for consistency with catalog language. The university is no longer using University Core.</p>

HNRS Admission Reqs	Effective Catalog Year	Fall 2022	Fall 2023
	Description and justification of the request	Adds second option for Honors admission to all colleges: "Students with a 3.9 high school GPA can submit an essay and academic resume for application review." This makes permanent one of the two additional paths to honors admission used last year on an experimental basis and has been approved by the individual college honors programs.	Changing high-school GPA requirement for new freshmen from 3.5 to 3.75 for AFLS, ARCH, and COEHP. This brings all college honors programs to a uniform 3.75 high-school GPA requirement. The change has been approved by the three colleges' honors programs and is supported by the Honors College. This change would only have affected 12 students last year.
