Program Goals and Objectives

Program Goals and Objectives

The Department of Animal Science will 1) perform research from discovery to application that benefits the production efficiency, animal health/well-being, food safety/security, and sustainability of animal agriculture, 2) recruit, educate, and prepare for the future, a new generation of citizens that will provide expertise in food production, animal health/well-being, as well as human health and nutrition, and 3) provide research-based livestock and forage information through non-formal educational methods for the sustainability and management of agricultural production systems to improve Arkansans quality of life.

Learning Outcomes

Learning Outcomes

1. Students will demonstrate an understanding of scientific knowledge and gain a basic foundation in the general animal sciences, including physiology, genetics, nutrition, muscle foods, as well as demonstrate production management skills.
2. Students will possess problem solving skills.
3. Students will possess critical thinking skills and objectively make decisions about contemporary issues based upon scientific facts rather than emotion.
4. Students will demonstrate basic oral (Outcome 4a) and written (Outcome 4b) communication skills and demonstrate the ability to write and present information in a professional manner.

Description and justification of the request

Description of specific change	Justification for this change
We want to add CHEM 1103/01L as a potential option for our students in the Chemical and Physical Sciences category along with CHEM 1073/1071L. We are adding CHEM	We have a number of students transfer in CHEM 1103/01L and a number of students who change their concentration from the Pre-professional to

By requiring either CHEM 1073/71L or CHEM 1123/21L we are forcing a number of our students to take an extra chemistry course that they may not need depending on their career path.

Alice Griffin (agriffin) (03/15/22 9:41 am): Changed University Core to State Minimum Core for consistency with catalog language. The university is no longer using University Core.
