Online/Web-based

Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

No

What are the total 15 ~~21~~
hours needed to
complete the
program?

On-line/Web-based Information

Reason for offering

Web-based Program

8. Program summary/justification for offering program by distance technology:

The market has moved to online programming to supplement face-to-face courses and/or add to a college's educational offerings. More and more of our peer and aspirant colleges of business have moved to some form of online programming (see for example, <http://www.businessinsider.com/harvard-business-school-online-courses-2013-10>). In addition, offering a degree online strategically positions the College to capture new markets (e.g., students abroad, degree completion, and adult learners). Supply Chain Undergraduate Degree Labor & Market Analysis suggests strong growth for the supply chain labor market. There are seven universities offering online SCMT Bachelor of Science degrees. Cohort schools (SEC and Land-Grant Universities) do not offer online undergraduate degrees in this concentration. There are few state and regional universities that offer supply chain bachelor's degrees (face-to-face or online), which provides an opportunity to serve the needs of the state and region. This is one of the few fields in which Arkansas wage rates are among the highest in the nation. The program also has significant opportunities internationally. The minor for non-business majors supports college and university interdisciplinary efforts, and provides flexibility for students. All courses are already developed or are in development and being offered online.

Description and justification of the request

Description of specific change	Justification for this change
Removing two courses from the list of required courses for the SCMT minor for non-business students (SCMT 3443--DELIVER: Transportation and Distribution Management and SOURCE: Procurement and Supply Chain Management) and replacing those with the supply chain introduction course (SCMT 2103--Integrated Supply Chain Management). This change increases the number of elective hours from six to twelve.	Non-business students will benefit by taking the introductory supply chain management class (SCMT 2103--Integrated Supply Chain Management) before taking more advanced supply chain courses. The change also allows for more elective choices for non-business students seeking a minor in supply chain management.

Reviewer Comments

Alice Griffin (agriffin) (11/22/22 8:21 am): Rollback: Please review the definition of a minor in the Academic Policy 1621.10. Minors require a minimum of 15 credit hours.

Alice Griffin (agriffin) (11/22/22 9:53 am): The prerequisites fall within the maximum number of hours for a minor.

Alice Griffin (agriffin) (11/22/22 9:56 am): Changed the effective date from spring 2023 to fall 2023. Program changes can only take effect at the beginning of a catalog cycle. Only new programs can take effect mid-year. In addition, changed the reason from qualifying for the shortened approval workflow to making minor changes. As changing the total hours requires campus approval. Finally, changed the total hours field from 12 to 15 to match the program requirements noted.
