¹ MATH 2603 or MATH 2803 is a pre-req for CSCF 4133 .	
² Students have demonstrated successful completion of the learning indicators identified for learning outcome 2.1, by meeting the prerequisites for MATH 2554 .	
³ Students must complete the State Minimum Core requirements as outlined in the Catalog of Studies. The courses that meet the state minimum core also fulfill many of the university's General Education requirements , although there are additional considerations to satisfy the general education learning outcomes. Students are encouraged to consult with their academic adviser when making course selections.	
⁴ Students are required to complete 40 hours of upper-division courses (3000-4000 level). It is recommended that students consult with their adviser when making course selections.	
⁵ Data Science Statistics and Computational Analytics Concentration students are advised to select STAT 3013/STAT 3003 to meet the prerequisites required in the concentration.

Description and justification of the request	
Description of specific change	Justification for this change
DASC 1001 & DASC 1222 are updated to DASC 1003 and DASC 1223 as initially designed. DASC 2103 is moved to CMPA Concentration Required matching the original program design.	These provide the courses the appropriate number of hours and an improved course sequencing.
Adding MATH 2603 or MATH 2803 as electives as a pre-req for CSCE 4133.	
INEG 2314 then INEG 2323 sequence is changed to better match sequencing of STAT 3013 and 3003 per discussions with INEG.

Reviewer Comments **Alice Griffin (agriffin) (02/20/23 1:12 pm):** Reformatted course listing for DASC 1003 and DASC 1223, removed notation regarding First-Year Science Program. Removed comment field and entered course title in the add course field. Also, reformatted DASC 2133, placing course title in the add course field for consistency with campus formatting.

Alice Griffin (agriffin) (02/20/23 1:14 pm): Rollback: Please change the response to the question does this proposal impact any courses from another college, as math courses were inserted into the concentration as electives. As such, this request will require campus approval.

Alice Griffin (agriffin) (02/21/23 9:25 am): Changed reason for the modification from minor changes that qualify for the shortened approval workflow, to making minor changes. This action was taken because of the math courses from ARSC that were added to the concentration electives.

Alice Griffin (agriffin) (03/14/23 2:34 pm): Changed total hours field from 21 to 120 as requested by the Registrar's Office.
