ENGL 5083	Proposed Effective Date	Summer 2018	Spring 2019
	Catalog Title	Professing Literature	Professional Topics
	Short Course Title	PROFESSING LITERATURE	PROFESSIONAL TOPICS
	Catalog Description	An introduction to the profession of English studies and the teaching of English at the college level.	Specialized topics related to professional issues in the humanities, e.g. academic and alternative-academic job searches, publication workshops, public humanities, and/or the teaching of language and literature at various levels.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	We are proposing to change the title and description of this course in order to allow those faculty who teach it to offer students a broader scope of information regarding field-related professionalization issues and strategies that graduate students in English should consider before going on the academic and/or the alternative-academic job market.

LARC 2113	Proposed Effective Date	Summer 2018	Fall 2019
	Catalog Title	Design Communications I	Design Visualization, Inquiry and Communications
	Short Course Title	DESIGN COMMUNICATIONS I	DESIGN COMMUNICATIONS

	Catalog Description	Introduces basic graphic techniques fundamental to the communication of landscape design and landscape architecture. Emphasis on effective and efficient communication using free-hand and digital tools and techniques most frequently utilized in landscape architecture. Limitations and advantages are identified, and shared principles in both hand and computer graphics are emphasized.	Investigation and application of foundational, current and innovative techniques and technologies used in landscape architecture. Field work and other modes of inquiry and seeing are used to study sites. Processes and workflow are learned. Students learn inquiry through technologies, site context investigation, and how to communicate to stakeholders.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).

	Catalog Title	Landscape Architecture Design III	Landscape Architecture Design III: Engaging Site, Engaging Place
	Catalog Description	Introduction to design process(s) which responds to site and context. Reinforcement of design principles and organization systems applied to small scale design projects. Studio and lecture.	Fundamentals of site inventory, analysis, and assessment. Through measurement, observation, and documentation, students engage with the design of local and regional sites, synthesizing place-based inventorial understanding and experiential response. Students gain an appreciation for both quantifiable and qualitative measurement and observation as creative tools for design development.
	Title/Description Change Type	Minor (stylistic/editorial) Change	Major Content Change
	Prerequisite(s)	LARC 1326.	LARC 1325.
	Justification	Updated typically offered field.	This course has been updated with a new title, course description and learning outcomes as part of an overall reconstruction of our four-year professional degree in Landscape Architecture (LARCBL).

	Catalog Title	Landscape Architecture Design IV	Landscape Architecture IV: Collaborating with Site

	Catalog Description	(Formerly LARC 3345) Expansion of abilities to analyze existing conditions of site and develop methods for interpreting and synthesizing information and perceptions into spatial design proposals. Emphasis on design form and the use of meaning and landscape narrative applied to increased scale projects within a larger or more complex context. Studio and lecture.	Students consider an increased complexity of landscape issues and multi-purpose design strategies within a local or regional context, while simultaneously responding to external programmatic requirements. Instructor-guided design projects reinforce the value of site exploration and enumeration. The design process is enriched through programmatic and service requirements, stakeholder collaboration, and reflection on design implication.

PHYS 2033	Proposed Effective Date	Summer 2018	Spring 2019
	Title/Description Change Type	Minor (stylistic/editorial) Change	
	Prerequisite(s)	PHYS 2013.	PHYS 2013 or PHYS 2054
	Justification	Admin update to typically offered field and delivery method.	Every fall we have students who switch majors, requiring our College Physics sequence instead of our University sequence. Some of these students are completing UP I but now wish to switch to CP II instead of UP II. This requires overriding these students, causing considerable hassle for the instructor. By listing UP I as a possible pre-req for CP II, this avoids the need for an override. CP I and UP I (PHYS 2054) cover the same material, but at a different math level. Those students who have completed UP I will be well prepared for CP II.

SPAN 4563	Proposed Effective Date	Fall 2018	Fall 2019
	Academic Level	Dual Level	Undergraduate
	Prerequisite(s)	SPAN 3113 or SPAN 3123 or graduate standing.	SPAN 3113 or SPAN 3123 or instructor consent.

	Justification	Made changes to the community service hours requirement, allowing students to choose between two options, one community engagement oriented and one more research oriented. As stated in the 2017 syllabus (attached): Although all students will participate in service and community based learning activities and conduct research, there are two tracks: Service and Research. Students in the service track will complete 30 hours of community service and/or community based learning during the semester in the Latino youth support programs or in an alternative educational setting, approved by the instructor and will participate in a group research project that will produce an education policy paper. Students in the research track will complete a semester long-individual research paper on any topic related to Latino education and will participate in 15 hours of community service or a community based learning project. Students wanting to fulfill the Fulbright College Senior Writing Requirement with this class should take the research track. Graduate students will have additional readings and assignments, write a longer research paper and participate in one of the policy papers projects.	A separate graduate level number is being created for this course.
