

## CIM Report Jan 31, 2020 4:37pm

### Program Changes Pending Approval from Faculty Senate

Code	Field	Old Value	New Value
AGBSBS	User ID:	lkulcza	nkemper
	Phone:	7456	2697
	Effective Catalog Year	Fall 2018	Fall 2020
	Estimated Student Demand for Program	250	350
	Scheduled Program Review Date	2022	2022-2023
	Program Goals and Objectives	Program goals and objective remain unchanged.	To be the premier agricultural business and applied economics program in Arkansas, provide concentrations and specializations that are responsive to the needs of both students and industry stakeholders, and prepare students for success in the global marketplace.
	Learning Outcomes	Learning outcomes remain unchanged.	1. Understand the fundamental principles which describe how markets operate in an economy 2. Ability to comprehend and analyze firm-level problems using basic economic principles, particularly those problems of businesses in the agricultural sector 3. Have the necessary written and oral communication skills to explain economics concepts 4. Have a working understanding of basic quantitative analysis tools and an ability to analyze data 5. Understand the impacts of government policies and general economic conditions on firms, markets and institutions 6. Be prepared for work in agribusiness or for a program of graduate/professional education.

Description and justification of the request	Admin update for courses not found.   Admin update for courses not found.	<p>We are creating a new course AGEC 4243: Agribusiness Strategy and adding this course to our Management Block options.</p> <p>NEW GEN ED CHANGE 11/08/2019: To address Goal 6 Learning Outcome 6.1 in the General Education Curriculum, we are adding a new requirement to each of the three concentrations in our AGBSBS program. The 'Capstone Experience' requirement will consist of two options for students: 1) AGEC 401V - Agribusiness Internship or a new course 2) AGEC 4041 - Agribusiness Capstone. Students can complete either option to fulfill the requirement and meet Learning Outcome 6.1.</p> <p>Our undergraduate program has experienced tremendous growth over the past 10 years and we are experiencing large class sizes in our upper division courses. Students majoring in AGBS much choose two courses from three blocks (Policy, Marketing, and Management Blocks). The Management Block in particular represents a chronic bottleneck for our program. Adding the new course AGEC 4243: Agribusiness Strategy to our Management Block would increase our number of choices in this block from 4 courses to 5. The plan is to offer this course during the spring semester which also helps us balance our offerings across the Blocks.</p> <p>NEW GEN ED CHANGE 11/08/2019: the addition of the Capstone Experience requirement allows our program to meet Learning Outcome 6.1 by creating an avenue to better assess our students abilities to synthesize, integrate, and apply knowledge developed in their undergraduate program. Both options in our Capstone Experience will help better assess students in the areas of: written and oral communication, critical thinking, quantitative literacy, and how to apply the core principles of the Agribusiness Program.</p>

	Phone:	7456	2697
	Effective Catalog Year	Fall 2018	Fall 2020
	What are the total hours needed to complete the program?	120	21
	Estimated Student Demand for Program	200	300
	Scheduled Program Review Date	2022	2022-2023
	Program Goals and Objectives	Program goals and objectives are unchanged.	See AGBSBS.
	Learning Outcomes	Learning outcomes are unchanged.	See AGBSBS.

Description and justification of the request	Admin update for courses not found.   Admin update for courses not found.	<p>1. AGEC 4243: We are creating a new course AGEC 4243: Agribusiness Strategy and adding this course to our Management Block options.</p> <p>2. STAT 2303: The addition of STAT 2303 as the third option for students to fulfill their MATH/STATS requirement in our program. If this change goes through, our students would then be able to choose 3 hours from the following: AGEC 2403, WCOB 1033, or STAT 2303.</p> <p>NEW GEN ED CHANGE 11/08/2019: To address Goal 6 Learning Outcome 6.1 in the General Education Curriculum, we are adding a new requirement to each of the three concentrations in our AGBSBS program. The 'Capstone Experience' requirement will consist of two options for students: 1) AGEC 401V - Agribusiness Internship or a new course 2) AGEC 4041 - Agribusiness Capstone. Students can complete either option to fulfill the requirement and meet Learning Outcome 6.1.</p> <p>AGEC 4243: Our undergraduate program has experienced tremendous growth over the past 10 years and we are experiencing large class sizes in our upper division courses. Students majoring in AGBS must choose two courses from three blocks (Policy, Marketing, and Management Blocks). The Management Block in particular represents a chronic bottleneck for our program. Adding the new course AGEC 4243: Agribusiness Strategy to our Management Block would increase our number of choices in this block from 4 courses to 5. The plan is to offer this course during the spring semester which also helps us balance our offerings across the Blocks.</p> <p>STAT 2303: For years, we have allowed students to also enroll in STAT 2303 and we would provide course substitutions. At our last faculty meeting, we voted to formally adopt STAT 2303 as the third option in our list. This change has the potential to impact the enrollment for STAT 2303. We typically run approximately 50-60 students through our AGEC 2403 each fall semester. We suspect that most of the demand for STAT 2303 would be experienced in the spring semester when we do not traditionally offer AGEC 2403. We currently are offering AGEC 2403 this spring but do not have the resources to continue offering the course by next spring. The current enrollment is 46 students. Our department reached out to the MATH department to inquire about this planned program change and we received positive feedback from Dr. Mark Johnson (email chain attached).</p> <p>NEW GEN ED CHANGE 11/08/2019: the addition of the Capstone Experience requirement allows our program to meet Learning Outcome 6.1 by creating an avenue to better assess our students abilities to synthesize, integrate, and apply knowledge developed in their undergraduate program. Both options in our Capstone Experience will help better assess students in the areas of: written and oral communication, critical thinking, quantitative literacy, and how to apply the core principles of the Agribusiness Program.</p>

	Reviewer Comments		agriffin - Thu, 05 Dec 2019 17:07:22 GMT - Adjusted formatting in program requirements so that curriculum totals 120 hours. agriffin - Thu, 05 Dec 2019 17:25:50 GMT - In ten semester plan, replaced HIST 3533 (2nd occurrence) with HIST 3553 to reflect correct options from program requirements. agriffin - Thu, 05 Dec 2019 17:36:45 GMT - Updated scheduled program review date. Also inserted program goals and student learning outcomes from the 2019 assessment report. ac087 - Fri, 06 Dec 2019 16:15:33 GMT - Rollback: Rollback per Vicky Watkins. watkinsv - Fri, 06 Dec 2019 16:21:07 GMT - Changing MEST course per recommendation from Swedenburg agriffin - Fri, 06 Dec 2019 19:21:54 GMT - Both courses in red have been submitted into the approval workflow.
CDISMS	User ID:	fhagstr	rglade
	Phone:	575-4910	575-3575
	Select a reason for this modification	Changing Title of Existing Certificate, Degree, or Major—(LON)	Making Minor Changes to an Existing Degree (e.g. changing 15 or fewer hours, changing admission/graduation requirements, adding/ changing Focused Study or Track)
	Effective Catalog Year	Fall 2019	Fall 2020
	What are the total hours needed to complete the program?	47	51

	<p>Description and justification of the request</p>	<p>Change the name of the degree to Communication Sciences and Disorders.   There is an increased emphasis on science and research in the fields of speech-language pathology and audiology. The changed title of this graduate degree reflects the educational and professional standards of the field with which our degree is aligned. This proposed change is also consistent with the titles of graduate degrees at peer institutions. These changes will more effectively reflect the educational preparation of our students for entry level professional practice.</p> <p>Adding course requirements to the catalog.   The catalog currently refers to the program website to show courses requirements. Adding course requirements to the catalog will make it easier for the students to know what academic and clinical courses they are expected to complete.</p>	<p>1. Increase Required Degree Hours from 47 to 51 by increasing requirement of clinical course hours from 11 to 15.\n2. Remove CDIS 5531 Professional Issues from required courses and instead increase CDIS Graduate-Level Elective hours from 6 to 9 credits.   1. Currently, the CDISMS program requires only 47 total hours with 11 of them being clinical course credit. A review of degree requirements for benchmark institutions indicates an average number of total hours to be 55 with 15 of those being clinical hours. A review of SEC institutions indicates an average number of total hours required to be 57.5 with 17 of those being clinical hours. Graduate students are required to complete 375 direct contact hours in clinical service provision per ASHA Standards for accreditation. Currently students are consistently enrolling for 1 hour of clinical course credit per semester; however, both the students and the clinical educators assigned to the sections are spending far more time in training than is allotted for a 1 credit hour course. This change is an initial attempt to value to the time of the clinical educators and to balance the cost of the course with the amount of time and preparation needed for the course. This program proposal change is to increase the total degree requirements to 51 hours (an increase of 4 hours), which still allows our total number of required hours to be less than our peer institutions.\n2. Program faculty believe that the content covered in Professional Issues could be covered in other required courses including clinical practicums. Increasing elective hours would expose students to additional course options tailored to their interest and increase flexibility in the program.</p>

<p>ENGLMA</p>	<p>Effective Catalog Year Scheduled Program Review Date</p>	<p>Fall 2019 2019-2020</p>	<p>Fall 2020 2020-2021</p>

	Program Goals and Objectives	NA	1. Students in the M.A. and Ph.D. programs should acquire specialized knowledge and develop academic skills in preparation for making scholarly contributions to their fields of research. 2. M.A. and Ph.D. students should also gain professionalization skills and knowledge in preparation for going on the job market or applying to other graduate programs. 3. M.A. and Ph.D. students should be able to complete their degrees in a timely fashion.
	Learning Outcomes	NA	1. M.A. students should be able to write and defend to a committee an original thesis of approximately 50-75 pages or to develop and have approved by a committee a portfolio project of approximately 50-75 pages. 2. M.A. students should be able to develop, submit, and present papers for professional conferences. 3. M.A. students should be able to complete their degrees within 2 years. 4. Graduating M.A. students should be able to secure employment, or to pursue additional education, that will aid them in developing professional careers.
	Description and justification of the request	Updated reference for Doctor of Philosophy program   The old reference was no longer correct.	We would like to add two new areas of study to our options for the Specialist Concentration: Environmental Literature, Writing, and Culture; and Religion and Literature.   We have the faculty to support offering these two new areas as specialization to our M.A. students in English. We also feel that making these areas of specialization available will further support our efforts of recruiting students to our M.A. program.
	Reviewer Comments		agriffin - Mon, 02 Dec 2019 16:27:14 GMT - Updated revised scheduled program review date. Also, inserted program goals and student learning outcomes from the department's 2015 assessment plan. Department is encouraged to review and update as appropriate. agriffin - Fri, 20 Dec 2019 22:34:31 GMT - Updated Learning Outcome #1 on behalf of Leigh Sparks.

Program Goals and Objectives	1. Graduates are competent in core areas of food science.\n2. Graduates can integrate and apply their knowledge.\n3. Graduates are proficient communicators.\n4. Graduates demonstrate professionalism and leadership skills\n

## Learning Outcomes

FDSC currently adheres to standards and learning outcomes approved by the Higher Education Review Board (HERB) of the Institute of Food Technologists (IFT) for undergraduate programs in Food Science and Technology. They are as follows:

**Standard: Food chemistry (FC) - The structure and properties of food components (water, carbohydrates, protein, lipids, other components and food additives); the chemistry of changes occurring during processing, storage, and utilization.**

**Essential Learning Outcomes:**

FC.1. Discuss the major chemical reactions that limit shelf life of foods.

FC.2. Explain the chemistry underlying the properties and reactions of various food components.

FC.3. Apply food chemistry principles used to control reactions in foods.

FC.4. Demonstrate laboratory techniques common to basic and applied food chemistry.

FC.5. Demonstrate practical proficiency in a food analysis laboratory.

FC.6. Explain the principles behind analytical techniques associated with food.

FC.7. Evaluate the appropriate analytical technique when presented with a practical problem.

FC.8. Design an appropriate analytical approach to solve a practical problem.

**Standard: Food microbiology (FM) - Microorganisms in food including beneficial, pathogenic, and spoilage; the influence of the food system on their growth, survival, and control.**

**Essential Learning Outcomes:**

FM.1. Identify relevant beneficial, pathogenic, and spoilage microorganisms in foods and the conditions under which they grow.

FM.2. Describe the conditions under which relevant pathogens are destroyed or controlled in foods.

FM.3. Apply laboratory techniques to identify microorganisms in foods.

FM.4. Explain the principles involved in food preservation via fermentation processes.

FM.5. Discuss the role and significance of adaptation and environmental factors (e.g., water activity, pH, temperature) on growth response and inactivation of microorganisms in various environments.

FM.6. Choose relevant laboratory techniques to identify microorganisms in foods.

**Standard: Food safety (FS) - Hazards (physical, chemical, biological) associated with foods and the food system; their transmission and control.**

**Essential Learning Outcomes:**

FS.1. Identify potential hazards and food safety issues in specific foods.

FS.2. Describe routes of physical, chemical, and biological contamination of foods.

FS.3. Discuss methods for controlling physical, chemical and biological hazards.

FS.4. Evaluate the conditions, including sanitation practices, under which relevant pathogenic microorganisms are commonly controlled in foods.

FS.5. Select appropriate environmental sampling techniques.

FS.6. Design a food safety plan for the manufacture of a specific food.

**Standard: Food engineering and processing (FE) - Food engineering principles; food preservation and processing; packaging materials and methods; cleaning and sanitation; water and waste management.**

**Essential Learning Outcomes:**

FE.1. Define principles of

Description and justification of the request

1) Adjust course choices to satisfy statistics requirement on each concentration: on Food Science removed STAT 2023, on FDTN removed WCOB 1033 and AGECE 2403, on FDCU added AGST 4023. (0 net change because the change is adding or removing from a list of course choices).  
 2) Remove requirement of MATH 2053 on FDTN for students pursuing business minors. (3 hour net change)  
 3) Add CHEM 3603/3601L CHEM 3613/3611L alternate option to CHEM 2613/2611L to FDTN and FDCU. This option is already available on FDSC. (0 net change because the change is adding to a list of course choices).  
 4) Add CHEM 3813 to FDTN and FDCU which is already required for FDSC. (3 hr net change).  
 5) Add FDSC 2523 to all concentrations (3 hour net change).  
 6) Add FDSC 4122/4121L to FDTN and FDCU (3 hour net change).  
 7) Removed NUTR 1213 from FDTN and FDCU (3 hour net change).  
 8) Removed upper division requirement for communication intensive courses for FDCU.  
 1) To simplify the course options list and to make uniform across the three concentrations.  
 2) At the time this course was added as a requirement, courses students were required to take in AGBS-m and GBUS-m required MATH 2053 as a pre-req. Since this is no longer true and the options for minors is no longer restricted, this requirement needs to be deleted.  
 3) To provide uniform course options across the three concentrations. Also provides additional upper division course options to FDTN and FDCU.  
 4) Provides additional required upper division coursework for FDTN and FDCU. This course is needed for any student considering post graduate education in Food Science. While those on FDTN and FDCU who indicate an interest in graduate school are heavily advised to take the course as an elective, frequently students decide at the last minute to go to graduate school and therefore have not taken or can not work in taking biochemistry.  
 5) This course replaces FDSC 2503 on FDTN and FDCU (FDSC 2503 is no longer taught) and is an additional course for FDSC. This course provides competencies in the area of food safety not covered in other FDSC classes that are critical to careers in the food industry for all graduates.  
 6) Course was an option course for FDTN and will now be required. Addition of course to FDCU provides additional upper division course. This course provides competencies in the area of food safety/food microbiology not covered in other FDSC classes that are critical to careers in the food industry for all graduates.  
 7) Desired competencies from NUTR 1213 are also obtained from other required courses therefore chosen as a course to remove to accommodate addition of other upper division courses.  
 8) Increase of required upper division and more options for adding upper division allows more flexibility for choice on this requirement. All concentrations can meet 40 hours of upper division through required coursework and choices through communication intensive, statistics, chemistry, philosophy and elective hours.

HISTBA	Effective Catalog Year	Fall 2019	Fall 2020
	Scheduled Program Review Date	2018	2024-2025
	Description and justification of the request	The HISTORY BA no longer requires as mandatory for all majors the attainment of proficiency in one World Language at the Intermediate Level II. Students may now choose to take any four classes from a broad menu intended to provide them with multicultural and interdisciplinary competency, whether in the form of foreign language proficiency, or a course selection from area studies and other disciplines in the humanities or social sciences. \n\nThe eight semester plan is thus changed accordingly, as shown in the attached file   A) To maintain a multicultural exposure of our majors while giving them the option of choosing between introductory courses in various disciplines and area studies and/or proficiency in one foreign language. \n\nB) to coordinate our program with the new program for a Bachelor of Arts in Teaching offered by the College of Education and Health Professions, allowing students to complete, within an eight semester plan of 120 credit hours, their B.A.T. in Social Studies, while majoring in History.\n\n	Added courses already approved, updating the catalog.\n\nHIST 1203 History of Football appears 'not found' because it's in the last line of approval.   Simple update

	Reviewer Comments	<p>agriffin - Fri, 23 Feb 2018 19:20:44 GMT - Rollback: Program requirements does not distinguish between track A and track B. In addition, both tracks need to be identified in the eight semester plan. Also, please change effective date to fall 2019 and total hours for degree should be 120. Please visit with Ryan Cochran to assist in making the edits.</p> <p>jdurdik - Fri, 02 Mar 2018 20:21:28 GMT - Rollback: More to do first.</p> <p>agriffin - Mon, 19 Mar 2018 18:16:31 GMT - Rollback: Please review the correspondence from 3-15-2018 for revisions.</p> <p>agriffin - Fri, 28 Sep 2018 14:12:46 GMT - Rollback: Rolling back at the request of submitter.</p> <p>agriffin - Mon, 01 Oct 2018 18:54:11 GMT - In the eight semester plan, inserted 3 credit hours for the HIST 4000 level and changed General Electives from 9 to 6 credit hours with assistance from Ryan Cochran.</p> <p>agriffin - Mon, 01 Oct 2018 18:58:12 GMT - Please note, what first appears to be major changes (in green) is based on the college inserting University Core Requirements into the program requirements field in order to assist in making the catalog copy more transparent with overall requirements. This request is considered a minor program change.</p> <p>agriffin - Mon, 01 Oct 2018 19:08:33 GMT - Removed inactive courses from program requirements.</p> <p>rcc003 - Thu, 11 Oct 2018 18:20:48 GMT - Entered MATH 1313 as an option in the eight-semester degree plan, per the Math Pathways Committee.</p> <p>calison - Tue, 21 May 2019 23:04:08 GMT - Some reformatting to make course totals clearer.</p>	<p>agriffin - Tue, 19 Nov 2019 14:28:45 GMT - Changed effective date from fall 2019 to fall 2020.</p> <p>agriffin - Tue, 19 Nov 2019 14:31:10 GMT - Updated scheduled program review date.</p>
NURSMS	Effective Catalog Year	Fall 2019	Fall 2020
	What are the total hours needed to complete the program?	36-41	39
	Scheduled Program Review Date	2018	2021-2022
	Description and justification of the request	<p>Moved MSN program admission requirements from a separate CIM block to the general MSN program CIM block.   To better present information on Courseleaf.</p> <p>Added Progression and Grade Requirements.   Progression and Grade Requirements have always been included in the Graduate Student Handbook. Including this information in the catalog will ensure that they are being enforced.</p>	<p>We combined NURS Educator Concentration CIM block with the NURS MS CIM block. That's why the course table is all green. We just copied and pasted the information from the concentration CIM block to this page. \n\nThe only two changes that are being proposed include: (1) Adding NURS 5112 and (2) Clarifying that students are required to complete 3 hours Thesis or 3 hours independent study - for a total of 39 hours.   (1) NURS 5112 is the Clinical Practicum for Advanced Health Assessment and is taken with NURS 5101. It was previously left out by accident. This change corrects it.\n\n(2) Keeping thesis or independent study hours at 3 credits ensures that the total number of hours required for the program for all students will be at 39 credit hours.</p>

	Reviewer Comments	<p>agriffin - Wed, 22 Aug 2018 22:00:50 GMT - Edited program description with permission from college.</p> <p>lkulcza - Fri, 24 Aug 2018 15:35:23 GMT - Removed indication that a new concentration was being added—the EXLD concentration was previously proposed and approved.</p> <p>skpatton - Fri, 24 Aug 2018 16:25:26 GMT - Rollback: Kate, since we aren't offering the nurse executive leader program, should we take that out? Thanks, Susan</p> <p>ggunderm - Tue, 11 Sep 2018 22:14:46 GMT - CIP okay.</p> <p>agriffin - Tue, 23 Oct 2018 16:32:16 GMT - Edited program goals on behalf of the School/ College.</p> <p>calison - Thu, 23 May 2019 14:30:33 GMT - Embedded URLs in text. College/School is encouraged to review it this formatting.</p> <p>agriffin - Wed, 04 Dec 2019 20:09:56 GMT - Changed Scheduled Program Review date based on correspondence with School Director.</p>
PBHLMPH	Degree	Master of Science	Master of Public Health
	Program Title	Community Health Promotion, Master of Science	Public Health, Master of Public Health
	Estimated Student Demand for Program	na	60
	Scheduled Program Review Date	2017-2018	2024-2025
	Select a reason for this modification	Making Minor Changes to an Existing Degree (e.g. changing 15 or fewer hours, changing admission/graduation requirements, adding/ changing Focused Study or Track)	Reconfiguring an Existing Degree—(LON)
	Program Code	CHLPMS	PBHLMPH
	Description and justification of the request	corrected CHLP course listings to PBHL equivalents.	<p>The degree name was changed to master of public health and two concentrations were added - Public Health Practice and Physical Activity.   Overall employment of public health workers is projected to grow 11 percent from 2018 to 2028, much faster than the average for all occupations. Growth will be driven by efforts to improve health outcomes and to reduce healthcare costs by teaching people healthy behaviors and explaining how to use available healthcare services. As Arkansas ranks at or near last nationwide in most health outcomes, an emphasis on public health is needed. Since 1996, there has been a 300% increase in accredited schools and programs of public health nationwide, and the University of Arkansas is one of but a very few land grant institutions that does not offer the MPH degree. In fact, most States have MPH degrees at multiple Colleges and Universities within their State. \n\nThe current M.S. in Community Health promotion is outdated and has been supplanted by the MPH degree, which is a professional degree and the recognized degree in the field of community and public health. With the increase in demand for public health workers, the U.S. has seen an increase in the number and diversity of public health graduates. In 2018, 47% of public health graduates were minority and 70% were female, with a nearly 6 times increase in graduates since 1975. \n\n</p>
	Description and Justification for this request	corrected CHLP course listings to PBHL equivalents.	
	Effective Catalog Year	Fall 2015	Fall 2021

Program Goals and Objectives

na

Objective 1: Understand evidence-based approaches to public health  
Objective 2: Explain the integration of public health health care systems  
Objective 3: Implement planning management to promote health  
Objective 4: Explore the role of policy in public health  
Objective 5: Apply principles of leadership in public health  
Objective 6: Communication of public health information  
Objective 7: Demonstrate inter-professional practice  
Objective 8: Integrate systems thinking into public health practice

	Learning Outcomes	na	<p>Objective 1 - Learning Outcomes</p> <ol style="list-style-type: none"> <li>1. Apply epidemiological methods to the breadth of settings and situations in public health practice</li> <li>2. Select quantitative and qualitative data collection methods appropriate for a given public health context</li> <li>3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate</li> <li>4. Interpret results of data analysis for public health research, policy or practice</li> </ol> <p>Objective 2 - Learning Outcomes</p> <ol style="list-style-type: none"> <li>5. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings</li> <li>6. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.</li> </ol> <p>Objective 3 - Learning Outcomes</p> <ol style="list-style-type: none"> <li>7. Assess population needs, assets and capacities that affect communities' health</li> <li>8. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs</li> <li>9. Design a population-based policy, program, project or intervention</li> <li>10. Explain basic principles and tools of budget and resource management</li> <li>11. Select methods to evaluate public health programs</li> </ol> <p>Policy in Public Health</p> <ol style="list-style-type: none"> <li>12. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence</li> </ol> <p>Objective 4 - Learning Outcomes</p> <ol style="list-style-type: none"> <li>13. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes</li> <li>14. Advocate for political, social or economic policies and programs that will improve health in diverse populations</li> <li>15. Evaluate policies for their impact on public health and health equity</li> </ol> <p>Objective 5 - Learning Outcomes</p> <ol style="list-style-type: none"> <li>16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making</li> <li>17. Apply negotiation and mediation skills to address organizational or community challenges</li> </ol> <p>Objective 6 - Learning Outcomes</p> <ol style="list-style-type: none"> <li>18. Select communication strategies for different audiences and sectors</li> <li>19. Communicate audience-appropriate public health content, both in writing and through oral presentation</li> <li>20. Describe the importance of cultural competence in communicating public health content</li> </ol> <p>Objective 7 - Learning Outcome</p> <ol style="list-style-type: none"> <li>21. Perform effectively on inter-professional teams</li> </ol> <p>Objective 8 - Learning Outcome</p> <ol style="list-style-type: none"> <li>22. Apply systems thinking tools to a public health issue</li> </ol>

	Program Goals and Objectives		The goal of the poultry science curriculum is to promote a fundamental understanding of poultry science across sub-disciplines, with an emphasis on the scientific basis underlying the poultry industry. The objective of the required POSC courses is to provide an overview of poultry-related careers, production practices, poultry anatomy, and disciplines that include physiology, diseases, genetics, nutrition, processing, and products. \n\n
	Learning Outcomes		Student Learning Outcome 1. Students will demonstrate knowledge of the basic principles of production, anatomy, physiology, genetics, nutrition, health, and disease identification as related to poultry.\n\nStudent Learning Outcome 2. Students develop critical-thinking skills that apply to issues and problems faced by the poultry industry.\n\n\nStudent Learning Outcome 3: Students will be able to communicate summaries of lab activities, interpret results of problem-solving activities and summarize results of research in written and oral communication

	Description and justification of the request		The core requirements have been changed to reflect 10 hours. In addition, students have to choose two POSC Controlled electives for six hours.   The change is due to POSC 1002 and POSC 1012 being combined to reflect POSC 1003. POSC 2353 is now an option for a controlled elective. \n\nAdditional courses were added to POSC controlled electives to give the student that is obtaining a minor a greater selection of courses.
