	Select a reason for this modification	Making Changes that Qualify for a Shortened Approval Process (including 15 or fewer hours within the college, total hours and admission/graduation requirements remain the same)	Revising Curriculum of an Existing Certificate or Degree (making a net change of more than 15 credit hours)-(LON)
	Effective Catalog Year	Fall 2023	Fall 2025
	What are the total hours needed to complete the program?	123	120

	Description and justification of the request	Updating deadline for applications.   The deadline changed.	Admission requirements were streamlined and course changes made to comply with requirements outlined by the Department of Elementary and Secondary Education. These revisions resulted in reducing the total number of hours needed for the Bachelor's degree.   We are revising the curriculum in all four concentrations to comply with new Department of Elementary and Secondary Education guidelines for K-6 teacher preparation programs. Course changes occurred to increase the number of hours of residency and update courses to reflect current research and practice. The course changes were made so the program could continue to prepare quality teacher candidates who are able to pass all licensure exams and to be highly sought after for a teaching position.
