	Description and justification of the request	Removing notice for program aimed at foreign-trained lawyers. The current pandemic makes it impossible to offer for the time being.	These changes provide a generalized description of our admission requirements and removes the prediction index language We are no longer using the prediction index for automatic admission to the law school. So, we needed to remove the prediction index language. All information presented on our website must be accurate to maintain compliance with American Bar Association requirements.

	Effective Catalog Year	Fall 2020	Fall 2021
	Description and justification of the request	updated URL Old URL out of date	Removal of GRE requirement for admission All applicants to the program are registered nurses and have passed a standardized licensure test which indicates their ability to critically think and analyze solutions. The program has lost applicants because of the GRE stipulation due to many other programs not requiring it, making the program less competitive. Faculty do not feel that the GRE is a valid indicator of success in this program. Faculty are exploring other potential screening exams and will consider the addition of another screening exam if it is determined that it would add value to the admission process.
	Reviewer Comments		agriffin - Wed, 03 Jun 2020 16:17:31 GMT - Changed effective date from fall 2020 to fall 2021. It is too late to complete approval before the fall 2020 semester begins.

NURSMS	Effective Catalog Year	Fall 2020	Fall 2021
	Description and justification of the request	We combined NURS Educator Concentration CIM block with the NURS MS CIM block. That's why the course table is all green. We just copied and pasted the information from the concentration CIM block to this page. \n\nThe only two changes that are being proposed include: (1) Adding NURS 5112 and (2) Clarifying that students are required to complete 3 hours Thesis or 3 hours independent study - for a total of 39 hours. (1) NURS 5112 is the Clinical Practicum for Advanced Health Assessment and is taken with NURS 5101. It was previously left out by accident. This change corrects it.\n(2) Keeping thesis or independent study hours at 3 credits ensures that the total number of hours required for the program for all students will be at 39 credit hours. College/School is encouraged to review it this formatting. agriffin - Wed, 04 Dec 2019 20:09:56 GMT - Changed Scheduled Program Review date based on correspondence with School Director. calison - Fri, 15 May 2020 03:13:52 GMT - Minor edits.

	Description and justification of the request	Admin update to sum program hours. Admin update to sum program hours.	Course content development necessitated reduction of OCTH 5422 by one credit and increase of OCTH 5483 by 1 credit to better reflect current practice. This results in no change to overall degree credits.\n\nAdded progression, retention, and dismissal policies, and clarified admission requirements. As the program is developing new courses and working with stakeholders, this change needed to be made to best prepare our students for occupational therapy practice in Arkansas and beyond.\n\nOTD program is integrated, sequential, and progressive. Therefore, these policies are needed to maximize student success in the program and clearly articulate the expectations that may result in probation or dismissal.

PHEDBS	Effective Catalog Year	Fall 2020	Fall 2021
	Scheduled Program Review Date	2019	2026-2027
	Description and justification of the request	<p>Students are required to have a 2.7 GPA at the completion of all coursework (Graduation). This requirement was removed. The 2.7 graduation GPA was removed because program faculty did not want to impede a students graduation if they fell below the 2.7 GPA after completing 120 hours of coursework. In the internship, students typically exceed the 2.7 GPA requirement.</p>	<p>Revised formatting of the eight semester degree plan, inserting General Education language on behalf of the college. AG To provide consistency with the General Education curriculum language. AG\n\n\n\n A Pre-PHED major was added (See PHED). The language used was modified to address the addition of the pre-major. PHED students have struggled to complete program pre-requisites and maintain the required GPA prior to enrolling in the upper level teacher education courses. This change will improve the matriculation of students. In addition, it will also streamline the student enrollment process as they enter their upper level courses.</p>

	Description and justification of the request	Minor Changes to the Poultry Science Core Removal of POSC 1002 and 1012-Changed to POSC 1003 POSC 3032/3042 Animal Physiology I and II was changed to POSC 3033 Animal Physiology POSC 3513 Current Approaches in Agricultural Laboratory Research was added as a controlled elective POSC 3223-Spring Only Course POSC 3554-Fall Only Course POSC 1002 and POSC 1012 was combined to reflect Intro to Poultry Science w/lab. POSC 3223 and POSC 3554 switched to balance out the offering of core classes. Animal Physiology I and II was changed from 2 two hour courses to reflect one 3 hour class. Students would take one and not the other. Now students will receive all of the course content. POSC 3513 was added to the controlled elective section to provide students with additional option.	POSCBS was slightly reconfigured (minor change); addition of new courses (ie., POSC 2413/2411L, POSC 3033); addition of 2 concentrations. This reflects the general education learning outcome requirements and addition of proposed/modified course(s). The concentrations will focus on courses to prepare students for either industry careers or pre-professional schools (e.g., vet school). The concentrations replace the discipline related electives in previous program and thus, the programs provide better definition of classes that will prepare them for their future.
