Program Goals and Objectives

**Program Goals and Objectives**

### Program Goals and Objectives

#### Program Goals:

The goal of the Birth through Kindergarten (BRKD) program is to ensure that educators are prepared to teach infants, toddlers, preschoolers, and kindergarteners with and without disabilities. The Birth through Kindergarten program will prepare educators to work in settings that serve young children, including public schools, early intervention programs, child care and education centers, and residential placement centers. The BRKD program will meet the need for a teacher licensure program that leads to Arkansas' Integrated Birth through Kindergarten/Special Education teacher license, as set forth in Arkansas Department of Education Rules Regarding Teacher Licensure

(<http://www.arkansased.gov/public/userfiles/Legal/Legal->

[Current%20Rules/ADE317\\_Educator\\_Licensure\\_EMERGENCY\\_RULE\\_SBOE\\_2015\\_02\\_12\\_](http://www.arkansased.gov/public/userfiles/Legal/Legal-Current%20Rules/ADE317_Educator_Licensure_EMERGENCY_RULE_SBOE_2015_02_12_)

Approved.pdf).

#### Program Objectives:

BRKD students are expected to:

1. Identify and describe accurate and evidence-based knowledge of the bio-ecological context of child development to include being knowledgeable and accepting of the diversity in the lived experiences of children and families.
2. Demonstrate the ability to identify and address complex social problems by forming solutions that are contextually appropriate and feasible.
3. Critically analyze, evaluate, and synthesize information, ideas, and beliefs in the process of forming conclusions and solutions to complex social issues and problems.
4. Be proficient in writing, making presentations, and evaluating human service programs and/or social contexts.
5. Demonstrate the application of their evidence-based knowledge of diversity, engaging in effective and appropriate interactions across the birth – kindergarten years. Their behaviors, attitudes, and interactions demonstrate that they have the cultural competency needed to work effectively cross-culturally.
6. Identify ethical issues and dilemmas, reflect on their own core values, and apply them to complex social problems.

#### Learning Outcomes

### Learning Outcomes

Student Learning Outcome 1: Students will identify and describe accurate and evidence-based knowledge of the bio-ecological context of child development to include being knowledgeable and accepting of the diversity in the lived experiences of children and families.

### Learning Outcomes

Student Learning Outcome 2: Students will formulate contextually appropriate and feasible policy solutions addressing complex social problems.

Student Learning Outcome 3: Students will be able to critically analyze, evaluate, and synthesize information, ideas, and beliefs in the process of forming conclusions and solutions to complex social issues and problems.

Student Learning Outcome 4: Students will be proficient in (a) oral and (b) written communication.

Student Learning Outcome 5: Students demonstrate the application of their evidence-based knowledge of diversity, engaging in effective and appropriate interactions across the birth – kindergarten years. Their behaviors, attitudes, and interactions demonstrate that they have the cultural competency needed to work effectively cross-culturally.

Student Learning Outcome 6: Students will identify ethical issues and dilemmas, reflect on their own core values, and apply them to complex social problems.

#### Description and justification of the request

Description of specific change	Justification for this change
<p>HDFS 2493 Introduction to Cultural Competence added.</p> <p>HDFS 4342 Curriculum and Assessment 3-K and HDFS 4342L Curriculum and Assessment 3-K Lab removed; HDFS 4332 Curriculum and Assessment 0-3 and HDFS 4332L Curriculum and Assessment 0-3 lab removed.</p> <p>HDFS 4213/HDFS 4212L Math and Science for Young Children and HDFS 4223/HDFS 4222L Creative and Social Experience for Young Children added in their place.</p> <p>HDFS 4233 Developmental Assessment in Early Childhood added.</p> <p>HDFS 4763 Research in HDFS: Methodological Approaches, HDFS 4773 Research in HDFS: Statistical Approaches (Or STAT 2303) removed.</p> <p>CIED 3103 Children and Adolescent Literature removed.</p> <p>Title of Field Experience courses (HDFS 4373 and HDFS</p>	<p>HDFS 2493 Introduction to Cultural Competence will support students in supporting all children and families in their work as teachers and meet program needs for diversity, equity, and inclusion.</p> <p>HDFS 4342 Curriculum and Assessment 3-K and HDFS 4342L Curriculum and Assessment 3-K lab and HDFS 4332 Curriculum and Assessment 0-3 and HDFS 4332L Curriculum and Assessment 0-3 lab will be replaced by HDFS 4213/HDFS 4212L Math and Science for Young Children and lab and HDFS 4223/HDFS 4222L Creative and Social Experiences for Young Children and lab. A new course, HDFS 4233 Developmental Assessment in Early Childhood, will be added. With these changes, faculty are responding to student feedback, findings from program assessment review, and their own identification of several issues. These include lack of time devoted to the vital core content in HDFS 4332/lab and</p>

<p>4383) changed to Internship: Infant, Toddler, and Preschool Programs and Internship: Kindergarten Programs.</p> <p>One credit added to general electives to meet 120 requirement after proposed program changes.</p> <p>Edits made to the fine print about licensure requirements to bring that information up to date.</p>	<p>4342/lab; the need for additional focused instruction on developmental assessment; student need for clarity of instruction in math and science and creative experience, to match the existing course focused on language and literacy (HDFS 3333). By creating topic-specific courses, increasing time to three credits for each course, and pulling out assessment into a distinct 3 credit course, we will meet student needs and resolve these issues.</p> <p>Faculty will make room for these improvements and also respond to student feedback and program assessment data by removing HDFS 4763 Research in HDFS: Methodological Approaches and HDFS 4773 Statistical Approaches (Or STAT 2303) from the requirements. The B-K program is the only licensure program on campus to currently require methods and statistics, and a review of other B-K licensure programs revealed none that required these courses. Faculty worked with the instructor of HDFS 4763 to ensure that core knowledge of reading and interpreting research are embedded in core B-K courses.</p> <p>CIED 3103 is being removed because it focuses almost entirely on literature for grades 1-12, while the B-K program licenses teachers to teach through kindergarten. In addition, HDFS 3333 covers the selection of and presentation of literature for children ages 0-kindergarten. Thus, it is not in the best interest of students to require CIED 3103.</p> <p>The title of HDFS 4373 Field Experience I and HDFS 4383 Field Experience II will be changed to Internship: Infant, Toddler, and Preschool Programs and Internship: Kindergarten</p>

Description of specific change	Justification for this change
	<p>Programs. This will align with terms used by other licensure programs on campus and also increase clarity for students on the placements for both courses.</p> <p>Finally, the fine print on licensure requirements will be updated to reflect university wide removal of the Praxis 1 requirements and state changes to the Praxis 2 requirements for the B-K license.</p>
