Description and justification of the request

Description of specific change	Justification for this change
<p>Removed humanities requirements (PHIL 2003/WLIT 1113, HIST 1113, HIST 1123, and also added the Additional Studies Requirement of an additional major/minor or completion of the College Honors core.</p>	<p>In conjunction with the pending final approval of the AMSPAN and AMFREN additional major proposals, as well as the BAT proposals in French, German, and Spanish Education, and in conjunction with the University-wide elimination of the requirement of 30 additional hours (150 total) for double degrees (in other words, double majors across colleges), we propose these changes to allow additional flexibility for students seeking to add a major in a world language. We have many students in every college interested in adding linguistic competency and intercultural knowledge to their study of other subjects, this revision of major requirements will give the department the ability to incorporate more students in areas as diverse as STEM, business, education, architecture, agriculture, as well as the arts and sciences. The elimination of the world civilization and the philosophy/world language stipulations from among the university requirements should allow this additional flexibility. It also makes quite realistic the addition of the requirement of an additional minor or major in a program in Fulbright College (a requirement that has a precedent in the current Math major.) We believe our students should pursue a broad education, but we also want to strongly encourage and incentivize our students to establish insofar as possible, in consultation with their advisors, a coherently integrated program of studies involving interdisciplinary work, one that will effectively enhance their preparation for their career goals and their future professional and life endeavors. We think this modification of our requirements should help achieve these goals for our students.</p>
