11.0701 - Computer Science.

#### Program Title

Computer Science, Bachelor of Science in Computer Science

#### Program Delivery

##### Method

On Campus

Is this program interdisciplinary?

Yes

College(s)/School(s)

College/School Name

Fulbright College of Arts and Sciences (ARSC)

Does this proposal impact any courses from another College/School?

No

What are the total hours needed to complete the program?

**122** ~~126~~

## Program Requirements and Description

### Requirements

Computer science core courses include the fundamentals of programming concepts, data structures, operating systems, algorithms, formal languages, and database management systems.

The Bachelor of Science programs in Computer Engineering and Computer Science culminate in a capstone project completed in two consecutive semesters. In the first semester, students form teams and develop a project proposal. In the second semester, students develop, implement, and present the final project.

Humanities and social science electives are selected from the University Core Requirements listed in the Catalog of Studies. To satisfy the University Core, all CSCE students are required to take the following 18 hours of humanities/social science courses:

<b><u>PHIL 3103</u></b>	Ethics and the Professions	3
Fine Arts From Category "A"		3
U.S. History or Government		3
Social Science		9

The Undergraduate Handbook has a list of approved basic science, mathematics, and technical electives. Any course not included in these lists requires faculty approval.

### 8-Semester Plan

## Computer Science B.S.C.S. Eight-Semester Degree Program

The following sections contain the list of courses required for the Bachelor of Science in Computer Science (B.S.C.S.) degree with a suggested sequence below.

Not all courses are offered every semester, so students who deviate from the suggested sequence must pay careful attention to course scheduling and course prerequisites. Students wishing to follow the eight-semester

degree plan should see the [Eight-Semester Degree Policy](#) in the Academic Regulations chapter for university requirements of the program.

	Units	
	Fall	Spring
First Year		
<a href="#">GNEG 1111</a> Introduction to Engineering I	1	
<a href="#">ENGL 1013</a> Composition I (ACTS Equivalency = ENGL 1013)	3	
<a href="#">CHEM 1103</a> University Chemistry I (ACTS Equivalency = CHEM 1414 Lecture)	3	
<a href="#">MATH 2554</a> Calculus I (ACTS Equivalency = MATH 2405)	4	
<a href="#">PHYS 2054</a> University Physics I (ACTS Equivalency = PHYS 2034)	4	
<a href="#">GNEG 1121</a> Introduction to Engineering II		1
<a href="#">MATH 2564</a> Calculus II (ACTS Equivalency = MATH 2505)		4
Freshman Science Elective*		4
<a href="#">ENGL 1023</a> Composition II (ACTS Equivalency = ENGL 1023)		3
History/Government Elective		3
Year Total:	15	15
Second Year		
		Units
		FallSpring
<a href="#">CSCE 2004</a> Programming Foundations I	4	
<a href="#">CSCE 2114</a> Digital Design	4	
<a href="#">MATH 2603</a> Discrete Mathematics	3

Program Goals and Objectives

**Program Goals and Objectives**

**Program Goals and Objectives**

**Program Educational Objectives**

For the B.S. degree program in computer science, the following set of program educational objectives describe what graduates are expected to attain within a few years after graduation.

Computer Science graduates will:

1. Enhance Arkansas' and the nation's information technology industry.
2. Engage in advanced study of Computer Science and other fields, including engineering, law, medicine, and business.
3. Possess a sufficiently broad education to be inquisitive, well-informed reasoning members of their profession and society.
4. Understand human, social and ethical issues so that they will be good employees or employers, citizens and neighbors. ~~na~~

Learning Outcomes

**Learning Outcomes**

**Student Learning Outcomes**

- CS1. An ability to analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- CS2. An ability to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- CS3. An ability to communicate effectively in a variety of professional contexts.
- CS4. An ability to recognize professional responsibilities and make informed judgements in computing practice based on legal and ethical principles.
- CS5. An ability to function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- CS6. An ability to apply computer science theory and software development fundamentals to produce computing-based solutions. ~~na~~

Description and justification of the request

Description of specific change	Justification for this change
--------------------------------	-------------------------------

Description of specific change	Justification for this change
<p>Replace CSCE Elective with CSCE 4753 Computer Networks.</p> <p>Remove 4 hours of Basic Science Elective with lab.</p> <p>COMM 1313 moved to Spring semester.</p> <p>Replace INEG 2313 with INEG 3313.</p>	<p>This formalizes CAC of ABET requirement for CS programs to have topics on “principles and practices for secure computing” and “networking and communications”.</p> <p>CAC of ABET only requires six credit hours in natural science course work and must include laboratory work. BS in CS program still requires CHEM 1103 University Chemistry I, PHYS 2054 University Physics I, and a choice of either PHYS 2074 University Physics II or CHEM 1133/1131L.</p> <p>Only freshman are permitted to enroll in COMM 1313 in fall semesters.</p> <p>INEG developed a new course, INEG 3313, for non-majors and the CS program has voted to replace INEG 2313 with INEG 3313. However, the INEG 3313 is in the approval chain and I cannot add it yet.</p>

Reviewer Comments

**Alice Griffin (agriffin) (09/19/19 10:32 am):** Confirmed INEG 3313 is in approval process.

Replaced course code with course code and course title to help clarify the name of the course in the catalog copy. Also removed pending language so as not to appear in the catalog.

**Alice Griffin (agriffin) (09/19/19 10:46 am):** Rollback: Please insert your program goals and student learning outcomes into the template.
