## On-line/Web-based Information

Reason for offering

Web-based Program

The market has moved to online programming to supplement face-to-face courses and/or add to a college's educational offerings. More and more of our peer and aspirant colleges of business have moved to some form of online programming (see for example, <http://www.businessinsider.com/harvard-business-school-online-courses-2013-10>). In addition, offering a degree online strategically positions the College to capture new markets (e.g., students abroad, degree completion, CPA requirements, and adult learners). The courses required for the Online Minor in Accounting are already being offered for the Online BSBA in General Business, the Online BSBA in Accounting. The on-line sections are also available as options for the on-campus degree-seeking students, as allowed under University requirements.

the Online Minor in Accounting. The courses required for the Online Minor in Accounting are already being offered for the Online BSBA in General Business, the Online BSBA in Accounting. The on-line sections are also available as options for the on-campus degree-seeking students, as allowed under University requirements. Future direct costs over the course of the next three years will include the costs to refresh the online courses (approximately 9 courses over the next 3 years at \$4,000 per course = \$36,000). Costs will be paid for by the revenue generated from the Online BSBA in Accounting.
