On-line/Web-based Information

Reason for offering

Web-based Program

The market has moved to online programming to supplement face-to-face courses and/or add to a college's educational offerings. More and more of our peer and aspirant colleges of business have moved to some form of online programming (see for example, <http://www.businessinsider.com/harvard-business-school-online-courses-2013-10>). In addition, offering a degree online strategically positions the College to capture new markets (e.g., students abroad, degree completion, transfer students and adult learners). Supply Chain Undergraduate Degree Labor & Market Analysis suggests strong growth for the supply chain labor market. There are seven universities offering online Supply Chain Management Bachelor of Science degrees. Cohort schools (SEC and Land-Grant Universities) do not offer online undergraduate degrees in this concentration. There are few state and regional universities that offer supply chain bachelor's degrees (face-to-face or online), which provides an opportunity to serve the needs of the state and region. This is one of the few fields in which Arkansas wage rates are among the highest in the nation. The program also has significant opportunities internationally. All courses are already developed or are in development and being offered online.

Program Goals and Objectives

Program Goals and Objectives

Program Goals and Objectives

The goals and objectives, as well as the learning outcomes are included with the BSBA requirements CIM block. ~~The program has two primary goals: internationalizing the Walton College and generating resources. In terms of internationalizing the college, this will happen in three ways:~~

~~1. We will have 100 Chinese undergraduates each year in our college, significantly internationalizing our classrooms.~~

~~2. Our faculty and PhD students will have the opportunity to teach in China since 6 of our core courses will be delivered in the summers in Suzhou.~~

~~3. Once revenues begin to flow, scholarships will be set aside for a number of Walton College students to accompany our faculty in the summer to take some of these core courses in Suzhou, China.~~

Learning Outcomes

Learning Outcomes

See above. ~~Students will complete a BSBA with a major in Supply Chain Management.~~

Description and justification of the request

Description of specific change	Justification for this change
<p>The Supply Chain Management department is consolidating the two, previous concentrations (Transportation and Logistics and Retail Supply Chain Management) into one major, Supply Chain Management.</p> <p>Add SCMT 3103, Supply Chain Management Internship requirement for 18 hours of required major courses.</p> <p>Reduce the major electives from six hours to three hours.</p>	<p>The Supply Chain Management department has developed several new courses and modified several courses over the past few years in response to employer feedback. Consolidating the two concentrations still allows students the flexibility to take any and all combinations of the former concentrations.</p> <p>Industry partners have emphasized a need for an internship requirement. The major course electives were adjusted to allot for 3 hour, SCMT 3103, Supply Chain Management Internship.</p>

Alice Griffin (agriffin) (02/26/19 10:27 am): Fixed error in second year fall for ACCT 2023. No more red box.

Alice Griffin (agriffin) (02/26/19 1:44 pm): Inserted scheduled program review date.

Alice Griffin (agriffin) (02/26/19 2:59 pm): Edited the programs goals and learning outcomes fields with permission from submitter.

Lisa Kulczak (lkulcza) (03/01/19 8:04 am): SCMT 3663 is a new course proposal just starting approval process, with fall 2019 effective date. While the course may not make it through approval for fall 2019, it should be fine for this program update, which is effective fall 2020.

Lisa Kulczak (lkulcza) (05/30/19 3:21 pm): Rollback: Per request from Karen Boston.
