Justification for this request

This is an inactivation of the departmental writing requirement in conjunction with a college wide change to remove the Fulbright Writing Requirement. This does not change established program/specific course requirements for students. This change coincides with the update to the "ARSC College Academic Regulations", which remove the Fulbright Writing Requirement on the basis that it is redundant to departments assessing General Education Learning Outcome (GELO) 6.1.

Program Requirements and Description

Requirements

Writing Requirement: Students majoring in physics may satisfy the Fulbright College writing requirement by means of a senior thesis ([PHYS 4980V](#)), an honors thesis submitted in fulfillment of the requirements of the honors program (), or by means of a paper submitted as part of [PHYS 49901](#) or any physics or astronomy course numbered 3000 or above. Students electing the last route must obtain approval of the instructor during the first three weeks of the semester. The research/analytical paper should demonstrate competency in the use of word processing software and also at least one computer analytical tool such as a spreadsheet, mathematical or graphics program, or an original program written by the student.

Assessment of Student Learning: In accordance with state, University, and college requirements, all students must have learning assessed before graduation. Students majoring in physics will be assessed in the course [PHYS 49901](#), which must be taken in the year prior to graduation.

Reviewer Comments

Lisa Kulczak (lkulcza) (11/25/24 10:27 am): Departmental writing requirement deletions do not require off-campus approval; workflow has been adjusted accordingly.

Lisa Kulczak (lkulcza) (11/25/24 10:43 am): Adjusted dates for "No new students admitted after" and "Allow students to complete through" based on email from dean's office.
