Program Goals and Objectives

**Program Goals and Objectives**

The program in recreation and sport management is designed to prepare candidates for a variety of career options in the vast field of recreation and sport management. Career opportunities may include positions in marketing, sales, and management for spectator-based sport such as intercollegiate athletics and professional sport, or positions in programming and administration in participatory-based sport such as community recreation program. Additionally, many students further their education in post-baccalaureate degree programs in sport management or business.

Learning Outcomes

**Learning Outcomes**

Since the goals and objectives for this program are that graduates will be prepared to enter the work force in areas such as sales, marketing, programming and facility and event management, or enter a graduate program in sport management or business, students graduating from this program should learn current trends and issues in marketing and sales of sport and recreation programs, and have amassed a resume full of practical field experiences to position the student for future success.

Description and justification of the request

Description of specific change	Justification for this change
<p>PSYC, HORT, CNED, and RESM alpha codes were added to the related electives section. UNIV 1001 was changed to UNIV in the related electives section.</p>	<p>The alpha codes were added to provide students with greater flexibility to choose courses more related to their interests and career path. This will also provide administrative relief because students have been utilizing these alpha codes through program modifications. UNIV 1001 was changed to UNIV in anticipation of future courses with this alpha code.</p>
