On-line/Web-based Information

Reason for offering

Web-based Program

We plan to create an opportunity to complete a minor in psychology in an online only version in addition to the face to face version. Psychology is an extremely popular minor and we believe it would be popular via online delivery as well. We are approaching 400 minors in our face to face offering. Providing an online minor would provide opportunities for students who are unable to attend face to face classes due to mobility issues to complete a minor in psychology.
