Program Requirements and Description

Requirements

Computer science core courses include the fundamentals of programming concepts, ~~data structures~~, operating systems, algorithms, formal languages, and database management systems.

The Bachelor of Science ~~programs~~ in Computer ~~Engineering and Computer~~ Science ~~program culminates~~ ~~culminate~~ in a capstone project completed in two consecutive semesters. In the first semester, students form teams and develop a project proposal. In the second semester, students develop, implement, and present the final project.

~~Humanities and social science electives are selected from the State Minimum Core Requirements listed in the Catalog of Studies. To satisfy the State Minimum Core, all CSCE students are required to take the following 18 hours of humanities/social science courses: The Undergraduate Handbook has a list of approved basic science, mathematics, and technical electives. Any course not included in these lists requires faculty approval.~~
