Alice,

I just received an email from DESE regarding the changes that SPED MED is making (cut off scores for their admission tests---test of Basic Skills). Ann Crosser (from DESE) said that they do NOT have to complete an Appendix C, they can just email those changes directly to her so that she can add it to their file.

Thanks,
Jennifer

Hi Jennifer,

I thought the same thing. So all is well. And just to clarify, if SPEDME is revising an approved licensure program, doesn't Suzanne need to submit a cover sheet and section C, along with the changes? If so, I will need to roll it back to her.

...this may be the 14th time that I have had to ask about licensure! Thanks so much, Alice

Jennifer,

It's because this is still a manual update to workflow for the time being, and that doesn't happen until it reaches the Registrar Initial step.

Cheers!

Lisa

Hi Alice and Lisa,

See below—Special Education is putting forward some changes in this licensure program. Is there a reason UTEB was not on the approval chain? I am not sure!
Thanks,

Thanks for the great info.

See below for the approval chain that I see for the Pre-Special Education requests.
I don't see the Teacher Education board you mentioned. Is that because this is technically a "pre" program?

Hi Matt,

Thank you for checking on this. Suzanne has been keeping us in the loop with these changes. Any pathway that leads to licensure has to be approved by the University of Teacher Education Board (they are actually on the approval chain). I don't think Special Education has presented to the UTEB yet, but Suzanne has definitely let us know about these changes!

Hi Jennifer,
I hope all is well.

Can you do me a favor and take a quick glance at the requested changes to Special Education. Particularly for the undergrad (1st attachment) can you confirm this is in line with other Education programs? Do you usually do anything with Graduate Programs? If so, please see the 2nd attachment and provide any input.

Thanks so much!

Matt
