51.1605 - Family Practice Nurse/Nurse Practitioner.

Program Title

Family Nurse Practitioner, Post Master's Certificate

Program Delivery

Method

Online/Web-based

Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

No

What are the total 21  
hours needed to  
complete the  
program?

## On-line/Web-based Information

---

Reason for offering

Web-based Program

These courses are already offered in a web-based format through the DNP program and this certificate would allow for an increased student population (those who are already nurse practitioners) to be able to take the courses and certify as Family Nurse Practitioners (FNPs). Many nurse practitioners who have a more narrow scope of practice desire to broaden their scope of practice by becoming certified in this way. There are not currently any schools in Arkansas offering FNP certification through a certificate program.

## Program Requirements and Description

### Requirements

The EMSON Post-Graduate Certificate program empowers advanced practice nursing professionals to advance their careers and pursue board certification in one of two Advanced Practice Registered Nurse (APRN) specializations: **Family Nurse Practitioner (FNP)**, **Adult Gerontology Acute Care Nurse Practitioner (AG-ACNP)**.

#### Family Nurse Practitioner (FNP)

21 minimum credits | 540 clinical hours

Students complete this post-doctoral/post-master's certificate program on a part-time basis. Applicants must hold a bachelor's degree from an accredited college or university in the United States or the equivalent from an international college or university, maintain a current registered nurse (RN) license, and have earned either (1) a Master of Science degree in Nursing 1 from a CCNE- or ACEN-accredited program, or (2) a doctoral degree (DNAP, DNP, or PhD) to be eligible for consideration. Other requirements include:

Evidence of at least two years of strong professional nursing experience.

Evidence of clinical placement commitments (necessary to fulfill the clinical objectives of the certificate) for master's or DNP prepared nurse practitioners.

Evidence of national certification in advanced practice nursing specialty.

Evidence of Advanced Practice licensure

The semester of entry can be spring, summer, or fall. The courses listed below must be completed.

<a href="#">NURS 5483</a>	Common Problems in Primary Care	3
<a href="#">NURS 5495</a>	Common Problems in Primary Care Clinical Practicum	5
<a href="#">NURS 5543</a>	Primary Care of Children	3
<a href="#">NURS 5683</a>	Primary Care of Children Clinical Practicum	3
<a href="#">NURS 5873</a>	Complex Problems in Primary Care	3
<a href="#">NURS 5884</a>	Complex Problems in Primary Care Clinical Practicum	4
Total Hours		21

### Program Costs

Courses currently exist in the DNP program and are offered with enrollment. No additional costs will be expected until exceed 25 student limit for course enrollment.

### Library Resources

Students should have access to online library resources.

### Instructional

#### Facilities

Courses are offered 100% online with no visits to campus required.

### Faculty Resources

These students will be enrolled in the same courses as students seeking the DNP - Family Nurse Practitioner degree. No additional costs for faculty instruction will be required unless the section limit of 25 is reached.

Program Goals and Objectives

<b>Program Goals and Objectives</b>
<p>Manage primary care for the whole family across the life span in a variety of clinical settings. Graduates who earn their post-doctoral/post-master’s FNP certificate will be qualified to manage all aspects of primary care, including diagnosis and management of common acute and complex chronic conditions.</p> <p>Certification eligibility: Family Nurse Practitioner — Board Certified (FNP-BC)</p>

Learning Outcomes

<b>Learning Outcomes</b>
<ol style="list-style-type: none"> <li>1. Utilize assessment data as a basis for determining an accurate problem list; evaluate the management outcomes of men, women, and older adults, and revise plans appropriately.</li> <li>2. Diagnose and manage men, women, and older adults health problems based on the knowledge of clinical presentation, natural history of disease and micro/macro environmental factors.</li> <li>3. Identify client problems that require collaboration and consultation or referral to other members of the multi-disciplinary health care team.</li> <li>4. Provide age appropriate wellness promotion and disease prevention services weighing the costs, risks, and benefits to individuals.</li> <li>5. Design a comprehensive, individualized, age-and condition-appropriate plan of care for treatment including promotion of health in clients with common conditions using appropriate theoretical framework.</li> <li>6. Describe the pathophysiologic, psychosocial, and family structure changes that occur in pregnant women.</li> <li>7. Independently manage common complex, acute and chronically ill men, women, and older adults, using interventions to prevent or reduce risk factors for diverse and vulnerable adult populations.</li> </ol>

### Learning Outcomes

8. Provide interventions adapted to meet the complex needs of individuals and families considering cost benefit and patient preference. Use correct diagnostic evaluation and management billing codes for complex problems seen in primary care.
9. Evaluate individual, caregiver, and family support systems to cope with and manage developmental (life stage) transitions.
10. Develop a plan for long-term management of complex chronic health care problems with the individual, family, and health care team.
11. Collaborate with others to diagnose and manage acute complications of chronic and/or multi-system health problems, including palliative and end- of -life care.
12. Safely perform procedures common to adult primary care clinical practice.
13. Educate individuals, families, caregivers, and groups regarding strategies to manage the interaction among normal development, aging, and mental and physical disorders.
14. Integrate physical, psychosocial and cultural assessment into comprehensive management plans for adolescents, children, and their families.
15. Utilize knowledge, theory, and research findings to develop plans for wellness promotion and risk of illness reduction for adolescents, and children.
16. Develop management plans for adolescents, and children with common acute and chronic health problems.
17. Develop management plans for families with common dysfunction and behavioral problems.
18. Develop therapeutic health teaching, anticipatory guidance, and counseling approaches for adolescents, children, and their families.
19. Evaluate clinical data and therapeutic options to differentiate between problem situations requiring nurse practitioner management, collaborative management, or referral to other providers.
20. Synthesize knowledge of community resources to effectively plan comprehensive nursing care for primary care and medically complex clients through collaboration and case management.
21. Analyze the impact of legal, political, economic and sociocultural factors on access and utilization of health care services for families.

#### Description and Justification for this request

Description of request	Justification for request
------------------------	---------------------------

Description of request	Justification for request
<p>The EMSON requests a certification program to be in place to offer Master's or Doctorally-prepared Advanced Practice Nurses an opportunity to broaden their scope of practice by certifying as a Family Nurse Practitioner.</p>	<p>These courses are already offered through the DNP program and this certificate would allow for an increased student population (those who are already nurse practitioners) to be able to take the courses and certify as Family Nurse Practitioners (FNPs). Many nurse practitioners who have a more narrow scope of practice desire to broaden their scope of practice by becoming certified in this way. There are not currently any schools in Arkansas offering FNP certification through a certificate program. This program would increase student population using resources already in existence without having to create any new courses.</p>
