Justification for this  
request

**We are not really deactivating the nurse educator program. Because the nurse educator is the only concentration in the Nursing Masters Program, we no longer need a separate CIM block to house catalog requirements. The requirements for completing the MSN Program are located within the NURS MS block. Students who are currently enrolled in will just complete the program as described in the NURS MS program.**

## On-line/Web-based Information

---

Reason for offering

Web-based Program

The target population for this degree is working professional Registered Nurses with competing demands. This population typified the non-traditional student and the focus of the educational progression of working professionals. To increase access to education, we want to offer it on-line to increase enrollment of such working professionals.

Program Goals and

Objectives

**Program Goals and Objectives**

Graduates are prepared to function independently or in a collaborative role on an interdisciplinary team as change agents to affect nursing education.

Learning Outcomes

**Learning Outcomes**

The Nurse Educator Core and specialty development courses prepare Nurse Educator students to assume roles in various educational settings. The Thesis or Research Project allows students to contribute to new knowledge in nursing through original research, replication studies, dissemination efforts, and utilization projects. The thesis or scholarly project requirement also prepares graduates for further study in a doctoral program.

### Reviewer Comments

**Alice Griffin (agriffin) (12/12/19 1:00 pm):** ATTENTION Registrar staff: Workflow will need to be adjusted to only on-campus approval. Concentrations no longer require off-campus approval.

**Lisa Kulczak (lkulcza) (12/16/19 4:24 pm):** Moved effective date forward in order to more accurately reflect when the program information will be removed from the catalog; however, last admit terms/last completion terms are fine as is.
