Describe Blended
Delivery Methods

Student has the option of taking classes in several different modes depending on their timeline for program completion. Face-to-face instruction will be offered on site. However, If a student prefers, they can receive on-line instruction via synchronous or pre-recorded video. Both methods of course completion will be available to the student.

Program Requirements and Description

Requirements

Admission

Admission to the program generally follows U of A Graduate School admission policies with the following exceptions:

The program does not permit the use of the MAT as an entrance test to compensate for undergraduate GPAs below 3.0. The GRE and GMAT are acceptable tests, but the analytical writing score must be 4.5 or above;

All applicants, including those with advanced degrees, will be evaluated for admission on the basis of their first baccalaureate degree.

[OMGT 5003](#) must be taken in the first term of operations management graduate study.

Before taking any graduate classes in the program, non-native speakers of English who do not have a conferred undergraduate degree from an accredited U.S. college or university must demonstrate minimum proficiency on one of the following tests of written English: TOEFL, IBT (26), ELPT (75) or GRE/GMAT Analytical Writing (4.5). The MSOM English Language Proficiency Policy requires Level II non-native speakers of English to complete [ELAC 4043](#) Research Writing in the STEM fields no later than the first semester of graduate level courses. In addition to course pre-requisites, before completing 12 hours of course work toward the operations management degree, students must successfully complete the following courses (or equivalent courses or demonstrate knowledge of these subject areas acceptable to the program):

OMGT 4313	Law and Ethics	3
OMGT 4323	Industrial Cost Analysis	3
OMGT 4333	Applied Statistics	3
OMGT 4853	Introduction to Decision Support Tools in Operations Management	3

These courses are offered at the undergraduate level and cannot be applied toward the requirements for a Master of Science in Operations Management degree.

Requirements for the M.S.O.M. Degree

To fulfill requirements for the M.S.O.M. degree, a student must earn a total of 30 semester hours credit in the program. Of these hours, 12 hours consist of required courses, while the remaining 18 hours are electives.

Required courses are:

OMGT 5003	Introduction to Operations Management	3
OMGT 5783	Project Management for Operations Managers	3
OMGT 5623	Strategic Management	3
OMGT 5123	Finance for Operations Managers	3
or OMGT 5463	Economic Decision Making	

If a core course requirement offers a choice between two options, only one can be counted as the required course. Required courses must be taken in the first 18 hours of graduate coursework and be completed with a grade of "B" or better. Students who earn a "C" or lower in a required course may repeat the course only once. Failure to earn a "B" or better in any of the four required courses will result in dismissal from the program. A minimum grade-point average of 3.0 (A = 4.0), calculated from the University of Arkansas graduate courses in this curriculum, must be met as a graduation requirement. Please note that if a student must retake a class to meet the grade requirements of this program, both the original grade and the retaken grade will count in the calculation of the GPA for graduation purposes.

While a thesis is not required, upon approval of the program director students may take up to six thesis hours to be applied toward the 30 semester hours required for degree completion. The six hours of thesis must be completed on the Fayetteville campus.

Students should also be aware of Graduate School requirements with regard to [master's degrees](#).

Are Similar Programs available in the area?

No

Estimated Student Demand for Program 700

 Review Date **10/01/2016**

Program Goals and Objectives

Program Goals and Objectives

1. Provide internationally competitive and industry recognized operations management graduate education to meet emerging needs of operations management professionals.
2. Prepare operations management students to assume leadership roles in industry and government.

Learning Outcomes

Learning Outcomes

1. Apply the skills and techniques required to lead and manage complex global operations involving processes, technology, and people.
2. Design plans and controls to create value through strategic, tactical, and operational change.
3. Design plans and controls to lead and manage multi-disciplinary projects.
4. Identify problems, analyze alternatives, and design solutions considering financial, environmental, and societal impact.
5. Use quantitative techniques and models to analyze data to support decision-making.
6. Assess legal, regulatory, professional, and ethical corporate and individual responsibilities.
7. Write and present to stakeholders and senior decision makers.

Description and justification of the request

Description of specific change	Justification for this change
Proposal to close the Little Rock AFB site and move site to the Walton College at 2nd and Main in Little Rock	Decision paper attached for justification to close Little Rock due to declining enrollments and changing demographics. A presence will be maintained in Little Rock at the Walton College at 2nd and Main site. A miscellaneous change request adding the site has been submitted to the Board of Trustees for approval, effective spring 2019.

Reviewer Comments

Alice Griffin (agriffin) (11/07/18 1:19 pm): Updated scheduled program review date.

Alice Griffin (agriffin) (11/07/18 1:24 pm): Rollback: Please upload a completed Letter of Notification 12 (see Registrar's website for template) with the request.

Alice Griffin (agriffin) (11/30/18 3:09 pm): Changed effective date from spring 2019 to fall 2019 to match LON. Cleaned up the location information and edited the description and justification for consistency. Changed effective date in LON to fall 2019 and inserted approval dates. Renamed document to match naming convention of BOT materials. Note, the document name does not match because LON is being used for multiple programs.

Manuel Rossetti (rossetti) (12/07/18 2:23 pm): Rollback: fix the LON

Ed Pohl (epohl) (12/07/18 2:25 pm): Rollback: FIX LON

Ed Pohl (epohl) (01/10/19 5:21 pm): Rollback: Do we need to update the program review date?

Norman Dennis (ndennis) (01/11/19 2:02 pm): Changed next program review date.
