Program Title

Healthcare Business Analytics, Master of Healthcare Business Analytics

Program Delivery

Method

On Campus

Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

Yes

College(s)/School(s)

College/School Name
College of Education and Health Professions (EDUC)
Fulbright College of Arts and Sciences (ARSC)

What are the total 30
hours needed to
complete the
program?

Program Requirements and Description

Requirements

Admission Requirements: Students must apply to and meet the admission requirements of the Graduate School of Business and be admitted by the departmental admissions committee.

Requirements for the Master of Healthcare Business Analytics Degree: Students whose previous studies have fulfilled requirements of the common body of knowledge in business and analytics will be required to complete a minimum of 30 hours of graduate work. The required common body of knowledge for the Applied Business Analytics degree includes fundamental business and economics concepts as well as fundamental knowledge of statistics. The M.H.B.A. program considers work experience an integral part of the curriculum and recommends that students work/intern for up to one year in a position (or positions) which allow for the practical application of the theoretical principles taught in courses.

Students will have the ability to apply healthcare business analytics, machine learning methods, prescriptive models, data, and computing to identify, assess, and seize the opportunity for data-driven value creation in the private and public sectors. The Master of Healthcare Business Analytics Degree is a non-thesis degree program. The comprehensive exam will be a component of the Practicum course, [ISYS 599V](#).

Students who hold non-immigrant status in the United States in the F-1 or J-1 categories are responsible for coordinating any necessary authorization for employment with the Office of International Students and Scholars (ISS). F-1 and J-1 students are strongly advised to discuss training options with the M.H.B.A. Program Director and the ISS office early in their program, and to make themselves aware of limitations and restrictions related to F-1 or J-1 employment authorization benefits.

30

Program Costs

The program will initially be operated with proposed grant funding for years 1 - 3. Start-up marketing and recruiting costs will initially be supported by the grant funding and the Sam M. Walton College of Business (WCOB). As program revenue is eventually generated, WCOB will use those funds to support the Co-Directors, new Administrative Assistant, and a Clinical/Teaching Faculty. The Dean's Office in the College of Education and Health Professions will use program revenue and other sources of funding to provide two faculty to assist with this program. These faculty may both be non-tenure track (i.e., Clinical/Teaching faculty) or one may be non-tenure track and one tenured/tenure-track. The Dean's Office in the Walton College of Business will use program revenue and other sources of funding to provide two faculty to assist with this program. These faculty may both be non-tenure track (i.e., Clinical/Teaching faculty) or one may be non-tenure track and one tenured/tenure-track.

Library Resources

No new library resources are being requested.

Instructional

Facilities

Two existing classrooms for Saturday classes plus Blackboard hosting of the curriculum.

Faculty Resources

4 new faculty positions--may be split among Tenure Track and Teaching Faculty as noted above.

Program Goals and

Objectives

Program Goals and Objectives

The degree will address barriers and facilitators to adoption of new procedures in the healthcare environment, as well as how analytics can achieve modern healthcare system and patient goals: high-quality, responsive, affordable, and efficient care. This degree program is designed to provide professional preparation for positions in healthcare business, government, and public service.

Learning Outcomes

Learning Outcomes

Students will have the ability to apply healthcare business analytics, machine learning methods, prescriptive models, data, and computing to identify, assess, and seize the opportunity for data-driven value creation in the private and public sectors.

Description and Justification for this request

Description of request	Justification for request
Creating a new, inter-college master's degree program in partnership with COHEP.	To provide market expertise in managing increased role of data and analytics in the healthcare industry by leveraging cross-campus expertise between Walton and the College of Education and Health Professions.

Reviewer Comments

Alice Griffin (agriffin) (10/11/21 3:09 pm): Inserted anticipated approval dates and minor edits to supporting materials with input from submitter.

Alice Griffin (agriffin) (10/11/21 3:13 pm): Revised scheduled program review date.

Alice Griffin (agriffin) (10/11/21 3:17 pm): All three courses in red are pending UCPC approval.

Matthew Ganio (msganio) (10/19/21 4:33 pm): Rollback: Per conversations with Alan - making edits to wording regarding faculty resources from COEHP.

Alan Ellstrand (aellstra) (10/20/21 2:14 pm): Uploaded updated Supporting Documentation file to include Wen-Jou Lo's faculty vita.

Alan Ellstrand (aellstra) (10/20/21 6:42 pm): Changed proposal to on campus only.

Alan Ellstrand (aellstra) (10/21/21 4:01 pm): Update to provide more specific information on program cost information and update Letter of Intent to remove the off campus option.

Alan Ellstrand (aellstra) (10/22/21 10:22 am): Attached updated proposal with additional faculty and resource allocations between CoHEP and WCOB

Alan Ellstrand (aellstra) (10/22/21 2:19 pm): Made minor updates to Proposal attachment.

Ketevan Mamiseishvili (kmamisei) (11/03/21 11:36 am): Per e-mail from Associate Dean Ellstrand on 11/2/2021, I removed cross-listings from Healthcare Analytics Fundamentals and Healthcare Business Analytics I and II courses and converted them to only ESRM 5303, 5823, and 5853 courses. I also replaced PBHL 5213 with PBHL 5563.

Ketevan Mamiseishvili (kmamisei) (11/03/21 11:42 am): I also revised the Proposal to match the changes I made in Program Management.

Alice Griffin (agriffin) (11/03/21 3:03 pm): Inserted anticipated approval dates into the Proposal document. Also, removed duplicate CV from Supporting Documentation.

Alice Griffin (agriffin) (11/03/21 3:09 pm): Sent the Workforce Analysis Request form to Little Rock.
