Description and justification of the request

Description of specific change	Justification for this change

Description of specific change	Justification for this change
The proposed changes are related to the total semester hours required for the MPA degree. In the existing MPA catalog, all MPA degree seekers are required to complete a minimum 42 semester hours of coursework. We decided to reduce such required credit hours from 42 hours to (a) 39 hours for those who are admitted as pre-career students and to (b) 36 hours for those who are admitted as in-career students. In-career students are those who hold a full time professional position at the time of their application, and pre-career students are those who are not classified as in-career at the time of application. The proposed changes are also related to required and elective courses: moving PLSC 5123 Public Budgeting and Finance to the required list; establishing 3 independent research credit hours for the MPA portfolio option. Stylistic changes include proper title for MPA degree program, proper course title and the semester it is offered, more explicit emphasis on the role of Graduate Coordinator in advising for students' special interest area development, etc.	Based on our research and internal review process, we propose these changes to educate our MPA students more effectively and efficiently. The change from 42 credit hours to 36-39 is based on researching peer institutions and programs along with considering the current status of our MPA program (e.g., lack of student enrollments, lack of faculty resources, etc.). The changes in required and elective courses are to keep the program competitive. PLSC 5123, Public Budgeting and Finance is a regular offering in peer MPA programs and the department now has the faculty to teach the class on a regular basis.
We are adding seven focused studies in community development, environmental policy and sustainability, health services administration, higher education administration, non-profit management, public policy analysis, and recreation and tourism	Adding the focused studies to more clearly identify the special interest areas we recommend for students.
