Program Requirements and Description

Requirements

Core Courses	21
Concentration Courses	9
Blockchain Enterprise Systems Concentration	
Choose 9 hours from the following courses:	
ISYS 5133	Blockchain and E Business Development
ISYS 5173	Blockchain Fundamentals
ISYS 5213	ERP Fundamentals
ISYS 5453	Blockchain and Enterprise Data
Total Hours	30

* [ISYS 5213](#) or [ISYS 5103](#) that is taken for the Supply Chain Management core will not count towards the nine hours required for the following concentrations: Business Analytics, Enterprise Resource Planning, or Blockchain Enterprise Systems.

** With approval of the SCMTMS Program Director, any senior-level (4000) course may be taken for graduate credit.

Program Costs

The program will be initially funded using Walton College operational funds and, eventually, program revenues as they are generated. Start-up marketing and recruiting costs will initially be supported by the College. Administrative responsibilities will be handled by the Supply Chain Management Department Masters Program Coordinator. Existing resources on campus will be used. Existing faculty in Supply Chain Management and Information Systems will teach the courses. All courses are already offered on a regular basis. Marketing and recruiting costs for the program will be supported by the College.

Description and Justification for this request

Description of request	Justification for request

Description of request	Justification for request
<p>A new, 30 hour Master of Science in Supply Chain Management with concentrations in Business Analytics, Enterprise Resource Planning, Blockchain Enterprise Systems, Finance, Retail, and Strategy and Human Resources utilizing existing courses within other Walton programs. This is the Blockchain Enterprise Systems concentration.</p>	<p>Industry wide needs are changing and becoming more complex, especially in Arkansas. Employers have voiced a concern in the scarcity of eligible managers with a supply chain education, especially beyond a bachelor's degree. Due to increased demands from customers, supplier, and shippers, employers need professionals with an advanced specialized understanding of supply chain. They need supply chain experts in innovation, sustainability, and market understanding, who have a broad business perspective. Employees who can adequately assess the most difficult challenges, then integrate solutions and manage long term change. The growing economy in Arkansas is in need of managers and leaders trained in the full skill set of supply chain; functional, technical, and social. Supply chain education must grow and adapt to meet the new and increasing needs of the industry.</p>

Reviewer Comments

Alice Griffin (agriffin) (09/17/19 2:41 pm): Replaced "track" with "concentration" throughout documentation. Added comment to program requirements, "Choose 9 hours from the following courses." With permission from submitter.

Alice Griffin (agriffin) (09/17/19 2:43 pm): Changed program goals and student learning outcomes to "see SCMTMS" in order to direct reviewers to the overall program, not the concentration.

Gary Gunderman (ggunderm) (10/04/19 4:19 pm): Approved pending documentation changes suggested by Dr. Martin.
