GEOS 4113			Added	
GNEG 1514	allcodes	GNEG 1515		GNEG 1514
	Proposed Effective Date	Fall 2017		Fall 2018
	Course Number	1515		1514
	Credit Hours	5		4
	Justification	Updated typically offered field.		We modified the course to 5 credit hours and included some topics associated with our first-year experience course GNEG 1111 Introduction to Engineering. This combination has not worked well in light of students who struggle with the math course also missing out on completing their FYE portion. It will be better for the students to return to having separate courses GNEG 1514 and GNEG 1111. This also helps for the summer program (Engineering Math Accelerated Program) in which we allow students to take this course without the FYE content and require students to begin in GNEG 1111 in the subsequent fall with their calculus course.
	Course Code	GNEG 1515		GNEG 1514
	Additional Notes			Due to the summer program mentioned above, we would like to adjust the course for Summer 2018 if possible.
	Reviewer Comments			ac087 - Fri, 19 Jan 2018 20:03:26 GMT - change in credit hours is considered a major change and must be done with the new catalog cycle.
