Program Title

Supply Chain Management Minor for Non-Business Students

Program Delivery

Method

On Campus

Online/Web-based

Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

No

What are the total 21

hours needed to
complete the
program?

On-line/Web-based Information

Reason for offering

Web-based Program

8. Program summary/justification for offering program by distance technology:

The market has moved to online programming to supplement face-to-face courses and/or add to a college's educational offerings. More and more of our peer and aspirant colleges of business have moved to some form of online programming (see for example, <http://www.businessinsider.com/harvard-business-school-online-courses-2013-10>). In addition, offering a degree online strategically positions the College to capture new markets (e.g., students abroad, degree completion, and adult learners). Supply Chain Undergraduate Degree Labor & Market Analysis suggests strong growth for the supply chain labor market. There are seven universities offering online SCMT Bachelor of Science degrees. Cohort schools (SEC and Land-Grant Universities) do not offer online undergraduate degrees in this concentration. There are few state and regional universities that offer supply chain bachelor's degrees (face-to-face or online), which provides an opportunity to serve the needs of the state and region. This is one of the few fields in which Arkansas wage rates are among the highest in the nation. The program also has significant opportunities internationally. The minor for non-business majors supports college and university interdisciplinary efforts, and provides flexibility for students. All courses are already developed or are in development and being offered online.
