Description and justification of the request

Description of specific change	Justification for this change
Requesting to inactivate program. This certificate program has not been successful in recruiting students. There has not been any student enrolled in the program for a number of years. Inactivating this post-master's certificate will allow program faculty time to continue conversations about the potential reconfiguration of this certificate program at a later date. However, if these conversations do not result in actions/strategies that can potentially result in increased recruitment/student demand, the program should be deleted/removed from program inventory as planned in 5 years.	Justification included in description prior to system upgrade.
