Summary of 2017-2018

During the May 2017 – May 2018 calendar year, Academic Initiatives and Integrity handled 455 cases of alleged academic dishonesty. Students were found responsible in 310 incidences, either through accepting responsibility for the alleged violation or being found responsible by the All-University Academic Integrity Board.

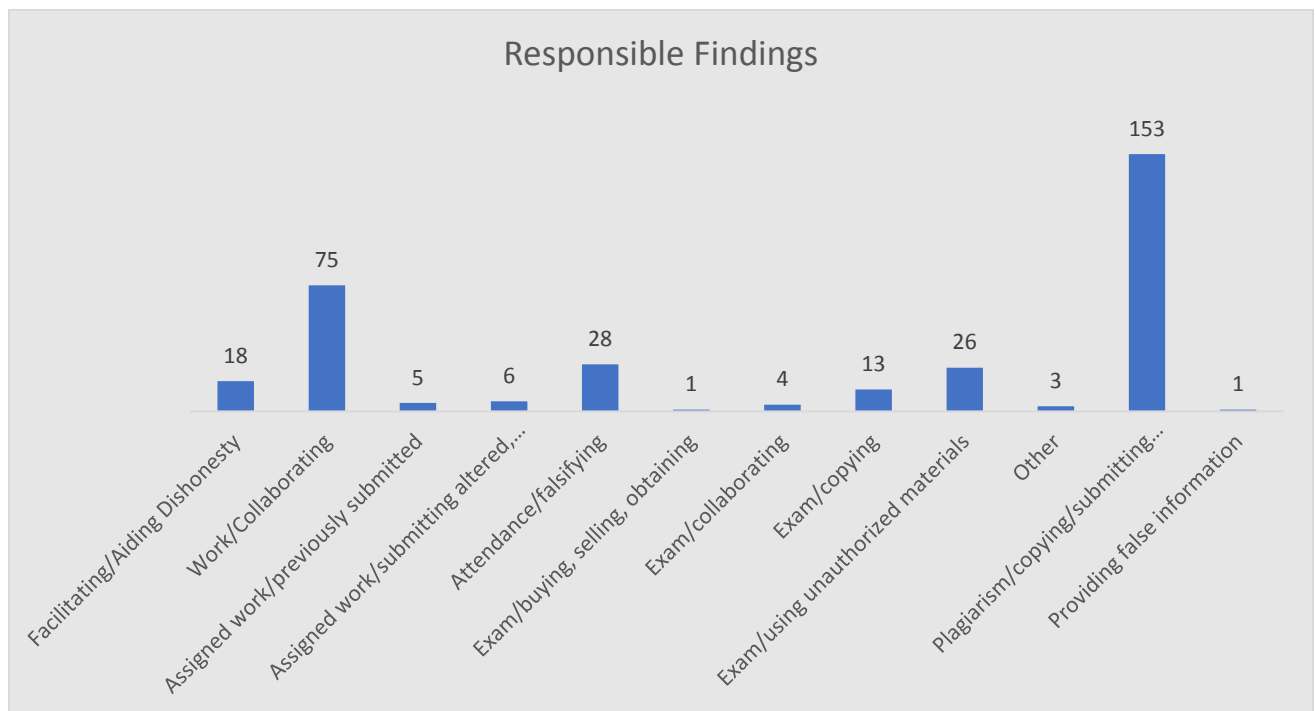

This is a significant decrease to the number of cases in 2016 – 2017 in which a total of 658 cases were reported to Academic Initiatives and Integrity, and 504 resulted in findings of responsibility. However, this discrepancy could largely be explained through 2 incidents in 2016 – 2017 that resulted in 192 cases alone. The classes in which these incidents occurred only accounted for 50 such cases in 2017 - 2018.

The following charts provide data specific to 2017-2018, as well as historical comparisons of the data each year beginning in 2014-2015.
