Is this program interdisciplinary?

No

Does this proposal impact any courses from another College/School?

What are the total hours needed to complete the program?

On-line/Web-based Information

Reason for offering

Web-based Program

The target population for this degree is working professional nurses with competing demands. This population typifies the non-traditional student and the focus of the educational progression of working professionals. To increase access to education, we want to offer it on-line to increase enrollment of such working professionals.

offering similar programs

Why is the Program needed if offered at other institutions?

Other nursing programs in the state offer MSN preparation in Administration. UAMS has a program in this concentration, yet it has not significantly impacted the numbers of master’s prepared nurse leaders in Northwest Arkansas. Arkansas Tech has a MSN in Nursing Administration and Emergency Management and Arkansas State University offers a MSN in Adult Health: Nursing Administrator. These programs are different in scope and focus compared to the proposed Nurse Executive Leadership concentration

Program Goals and Objectives

Program Goals and Objectives

The Master of Science in Nursing (MSN) Program offered by the Eleanor Mann School of Nursing expands on the philosophy of the undergraduate nursing program and contributes to the mission of the College of Education and Health Professions and the University of Arkansas. This program is built upon the Essentials of Master's Education in Nursing to provide students with a fuller understanding of the discipline so they may engage in higher level nursing practice and nursing leadership in a variety of settings. Graduates of the MSN are prepared as executive nurse leaders, nurse educators, or clinical nurse specialists and are expected to contribute to the nursing profession through the application of knowledge and skills in evidence-based leadership, education, and clinical practice. Completion of the MSN program provides the essential foundation for seamless academic progression into a research or practice-focused doctoral program.

Upon the completion of the program of studies the graduate will be able to:

1. Promote evidence-based practice through problem identification and the critique of research findings.
2. Collaborate in policy development, resource management, and cost-effective care delivery.
3. Apply legal/ethical principles to promote a values-based professional practice.
4. Affect health care outcomes through advanced nursing roles of clinician, teacher, manager, researcher, and consultant.
5. Utilize theories from nursing and other disciplines for decision making.

Program Goals and Objectives

6. Advocate for access to quality health care for diverse populations.
7. Collaborate with other disciplines to design, deliver, and evaluate health care services for diverse populations.
8. Provide executive, education and clinical leadership in a variety of health care and academic settings.

Learning Outcomes

Learning Outcomes

Upon completion of the Master of Science in Nursing—Nurse Executive Leader program, student will be able to:

1. Determine and evaluate best practices in human capital management.
2. Synthesize knowledge of health system resource utilization, organizational culture, and organizational structure as well as federal and state employment laws.
3. Establish proficiency in financial management practices used in health care organizations.
4. Apply knowledge of health and public policy surrounding legal issues in health care.
5. Integrate knowledge of health care delivery models, settings, laws, regulations, accreditation, standards, regulatory bodies, and scope and standards of practice.
6. Acquires expertise in professional practice models, practice standards, role delineation, and employee performance feedback.
7. Utilize knowledge of communication principles and styles in various executive level leadership setting.
8. Compare and contrast leadership principles learned from theory and observed in practice.
9. Integrate knowledge of strategic planning and program development.
10. Utilize ethical principles to critically analyze complex issues health care systems.
11. Synthesize knowledge of quality monitoring, culture of safety, performance improvement and process and outcomes measures.
12. Design, implement, and disseminate evidence-based initiatives while demonstrating an understanding regulatory and institutional policies
13. Applies innovative thinking to executive leadership and clinical practice.

Description and justification of the request

Description of specific change	Justification for this change
<p>Courses are being added and deleted. The concentration changes are necessary to align all Master's in Nursing Concentrations and decrease redundancies. Adding correct information from original proposal submitted to create the new EXLD concentration</p>
